Sasha Grey, rising adult film and pop-culture star, takes control in her new monograph "neu sex," moving out from in front of the camera to behind it, turning the lens on the wild world she inhabits. "When I first got into the adult industry, I decided to take my photography much more seriously. I started taking a camera with me to capture my experiences on set, so it was a moment in time, a memory for myself--not the video that would be seen by thousands of people. On days where I was physically unable to capture an image, Ian, my fiance, became my third arm. He understands my aesthetic, or lack thereof. Ian is a photographer, yet the work in this book is quite different from his usual style. When you are so close with someone, there is a shorthand and true understanding of what the other person is trying to accomplish. If there's something I am physically unable to photograph, I can say one word and Ian can assist me with my vision. Ian can capture intimate moments with me that nobody can fabricate, because of our relationship. The strong sense of familiarity eliminates all boundaries between the subject and the photographer. "Documenting myself has almost become a necessity. "There are so many photos of me, taken by other people, that aesthetically I have no control over. Documenting myself allows me to reflect on the day, on the feelings I am having at that second. When you work in the entertainment industry, there are always surprises; there certainly isn't one day that is similar to the last. Personally, it's important to embrace this and appreciate it every day. "Still images vividly capture emotion, a second in time that can be left open for interpretation by the viewer and the creator. I am inspired by the work of Cindy Sherman and Nan Goldin. Sherman's work continues to inspire me to develop certain characters. I figured if I am on set I might as well take advantage of my surroundings, and document my life in an exciting, untraditional manner. I look back at photos, and see how much I've grown, how my opinions have changed, and how they will continue to change." --Sasha Grey

This highly controversial new book considers how the dangerous offender has become such a figure of collective anxiety for the citizens of rationalised Western societies. The authors consider: * ideas of danger and social threat in historical perspective * legal responses to violent criminals * attempts to predict dangerous behaviour * why particular groups, such as women, remain at risk from violent crime. This inspired collection invites us to rethink the received wisdom on dangerous offenders, and will be of interest to students and scholars in the fields of criminology and the sociology of Risk.

"Once celebrated in the Western media as a shining example of a 'liberal' and 'tolerant' Islam, Indonesia since the end of the Soeharto regime (May 1998) has witnessed a variety of developments that bespeak a conservative turn in the country's Muslim politics. In this timely collection of original essays, Martin van Bruinessen, our most distinguished senior Western scholar of Indonesian Islam, and four leading Indonesian Muslim scholars explore and explain these developments. Each chapter examines recent trends from a strategic institutional perch: the Council of Indonesian Muslim scholars, the reformist Muhammadiyah, South Sulawesi's Committee for the Implementation of Islamic Shari'a, and radical Islamism in Solo. With van Bruinessen's brilliantly synthetic introduction and conclusion, these essays shed a bright light on

what Indonesian Muslim politics was and where it seems to be going. The analysis is complex and by no means uniformly dire. For readers interested in Indonesian Muslim politics, and for analysts interested in the dialectical interplay of progressive and conservative Islam, this book is fascinating and essential reading." -Robert Hefner, Director Institute on Culture, Religion, and World Affairs, Boston University
Over time Dutch and Indonesian musicians have inspired each other and they continue to do so. Recollecting Resonances offers a way of studying these musical encounters and a mutual heritage one today still can listen to.

The harrowing, true account from the brave men on the ground who fought back during the Battle of Benghazi. 13 Hours presents, for the first time ever, the true account of the events of September 11, 2012, when terrorists attacked the US State Department Special Mission Compound and a nearby CIA station called the Annex in Benghazi, Libya. A team of six American security operators fought to repel the attackers and protect the Americans stationed there. Those men went beyond the call of duty, performing extraordinary acts of courage and heroism, to avert tragedy on a much larger scale. This is their personal account, never before told, of what happened during the thirteen hours of that now-infamous attack. 13 Hours sets the record straight on what happened during a night that has been shrouded in mystery and controversy. Written by New York Times bestselling author Mitchell Zuckoff, this riveting book takes readers into the action-packed story of heroes who laid their lives on the line for one another, for their countrymen, and for their country. 13 Hours is a stunning, eye-opening, and intense book--but most importantly, it is the truth. The story of what happened to these men--and what they accomplished--is unforgettable.

This book first published in 1973 offers a broad survey of the study of symbolic ideas and behaviour. The study of symbolism is popular nowadays and anthropologists have made substantial contributions to it. Raymond Firth has long been internationally known for his field research in the Solomons and Malaysia, and for his theoretical work on kinship, economics and religion. Here from a new angle, he has produced a broad survey of the study of symbolic ideas and behaviour. Professor Firth examines definitions of symbol. He traces the history of scientific inquiry into the symbolism of religious cults, mythology and dreams back into the eighteenth century. He compares some modern approaches to symbolism in art, literature and philosophy with those in social anthropology. He then cites examples in anthropological treatment of symbolic material from cultures of varying sophistication. Finally he offers dispassionate analyses of symbols used in contemporary Western situations - from hair-styles to the use and abuse of national flags; from cults of Black Jesus to the Eucharistic rite. In all this Professor Firth combines social and political topicality with a scholarly and provocative theoretical inquiry.

This book examines popular culture in Indonesia, the world's most populous

Muslim nation, and the third largest democracy. It provides a full account of the key trends since the collapse of the authoritarian Suharto regime (1998), a time of great change in Indonesian society more generally. It explains how one of the most significant results of the deepening industrialization in Southeast Asia since the 1980s has been the expansion of consumption and new forms of media, and that Indonesia is a prime example of this development. It goes on to show that although the Asian economic crisis in 1997 had immediate and negative impacts on incumbent governments, as well as the socioeconomic life for most people in the region, at the same time popular cultures have been dramatically reinvigorated as never before. It includes analysis of important themes, including political activism and citizenship, gender, class, age and ethnicity. Throughout, it shows how the multilayered and contradictory processes of identity formation in Indonesia are inextricably linked to popular culture. This is one of the first books on Indonesia's media and popular culture in English. It is a significant addition to the literature on Asian popular culture, and will be of interest to anyone who is interested in new developments in media and popular culture in Indonesia and Asia.

Leo Bersani, known for his provocative interrogations of psychoanalysis, sexuality, and the human body, centers his latest book on a surprisingly simple image: a newborn baby simultaneously crying out and drawing its first breath. These twin ideas—absorption and expulsion, the intake of physical and emotional nourishment and the exhalation of breath—form the backbone of *Receptive Bodies*, a thoughtful new essay collection. These titular bodies range from fetuses in utero to fully eroticized adults, all the way to celestial giants floating in space. Bersani illustrates his exploration of the body's capacities to receive and resist what is ostensibly alien using a typically eclectic set of sources, from literary icons like Marquis de Sade to cinematic provocateurs such as Bruno Dumont and Lars von Trier. This sharp and wide-ranging book will excite scholars of Freud, Foucault, and film studies, or anyone who has ever stopped to ponder the give and take of human corporeality.

"Mereka menginginkan saya memimpin tim eksekusi yang menyapu habis keluarga-keluarga [Vietnam] dan membuatnya tampak seolah-olah itu dilakukan

oleh Vietkong, " kata Letkol Anthony Herbert, prajurit Amerika yang mendapatkan banyak bintang jasa dalam Perang Vietnam. *** Seorang bekas menteri luar negeri Pakistan, Niaz Naik, menyatakan kepada BBC bahwa ia sudah mendengar, dari utusan Amerika, bahwa Amerika sudah merencanakan matang-matang penyerbuannya terhadap Afganistan jauh sebelum peristiwa 11 September 2001... "paling lambat pertengahan Oktober 2001, sebelum salju turun." "Saya pikir, inilah waktunya kita menyeret kaki Soekarno ke bara api,"kata Frank Wisner, Deputy Direktur Perencanaan CIA (urusan operasi terselubung), musim gugur, 1956. Untuk menggusur Soekarno, CIA sampai membuat film porno, dengan lelaki yang mengenakan topeng Soekarno, dan seorang perempuan pirang yang dinyatakan sebagai agen KGB Uni Soviet. *** Buku ini menyingkap detail yang mencengangkan, dari berbagai sumber dan dokumen rahasia yang sudah dideklasifikasi, tentang operasi terselubung CIA dan serbuan militer AS di dua puluh negara, termasuk penggunaan senjata kimia dan biologi oleh Amerika untuk menjatuhkan pemerintahan yang sah di berbagai negara, dan upaya pembunuhan dan penggulingan kepala-kepala negara yang dirancangan oleh CIA dan Amerika. -MediaKita-

This book contains the oral testimony of victims of pornography, spoken on the record for the first time in history. Speaking at hearings on a groundbreaking antipornography civil rights law, women offer eloquent witness to the devastation pornography has caused in their lives. Supported by social science experts and authorities on rape, battery, and prostitution, discounted and opposed by free speech advocates and absolutists, their riveting testimony articulates the centrality of pornography to sexual abuse and inequity today. At issue in these hearings is a law conceived and drafted by Andrea Dworkin and Catharine A. MacKinnon that defines harm done through pornography as a legal injury of sex discrimination warranting civil redress. From the first set of hearings in Minneapolis in 1983 through those before the Massachusetts state legislature in 1992, the witnesses heard here expose the commonplace reality of denigration and sexual subordination due to pornography and refute the widespread notion that pornography is harmless expression that must be protected by the state. Introduced with powerful essays by MacKinnon and Dworkin, these hearings--unabridged and with each word scrupulously verified--constitute a unique record of a conflict over the meaning of democracy itself--a major civil rights struggle for our time and a fundamental crisis in United States constitutional law: Can we sacrifice the lives of women and children to a pornographer's right to free "speech"? Can we allow the First Amendment to shield sexual exploitation and predatory sexual violence? These pages contain all the arguments for protecting pornography--and dramatically document its human cost.

Sejak belia Magdalena Sitorus setiap hari menulis catatan harian (diary). Buku ini merupakan potongan dari sekuen catatan hariannya dalam rentang waktu 2014 sampai dengan 2019. Magda secara khusus mengangkat tentang cerita hidup

Oey Toen King menjadi sebuah buku, diawali dari rasa empati dan tertarik ingin mengetahui apa yang dirasakan dan dialami oleh mereka yang dianggap 'berbeda'. Dari pengalamannya mengobrol dan mendengarkan cerita hidup mereka, Magda tidak menyangka mendapatkan pengetahuan yang selama ini luput dari pengalaman maupun pemahaman. Dalam kisah hidup King, Magda justru mendapat gambaran kontribusi etnis Tionghoa pada pra dan awal kemerdekaan, hingga kemudian berbagai situasi politik nasionalisme hingga tragedi 1965 membuat mereka terpaksa meninggalkan Indonesia. Dalam buku ini Magda menuliskan cerita King kecil yang dipisahkan dari tanah kelahirannya dan teman-temannya untuk selanjutnya menjalani hidup menjadi manusia diaspora di Belanda, Amerika Latin, Filipina, dan lain sebagainya.
