Equip yourself with the tools for success in Electrical Installations, with this comprehensive new textbook published in association with City & Guilds and IET which has been fully-updated in line with the 2018, 18th Edition wiring regulations. -Study with confidence, using the most up-to-date information available for the new specifications and industry standards -Enhance your understanding of concepts in electrical installation with clear and accurate technical drawings and step-by-step photo sequences -Prepare for your trade tests or end of year exams, with end of chapter practice questions and a final assessment preparation chapter -Get ready for the workplace with Industry Tips and guidance on values and behaviours -Engage with author Peter Tanner's accessible text, drawing on his extensive industry experience

The guide is an essential resource for trainee teachers working towards the Teachers' Standards for qualified teacher status (QTS). It also helps newly qualified teachers (NQTs) and more experienced teachers have an 'understanding of, and always act within, the statutory frameworks which set out their professional duties and responsibilities' Teachers' Standards. Higher Level Teaching Assistants (HLTAs) and Teaching Assistants (TAs) working towards HLTA status will find the guide invaluable in developing knowledge of how 'other frameworks that support the development and well-being of children and young people impact upon their practice' HTLA Professional Standards.

A resource for students, providing training in construction crafts. It covers the Craft Certificate requirements, giving information that students need to pass their exam. It features exam style multiple-choice assessment questions, which provide extra support for revision and exam preparation.

This White Paper details the Government's 10-year reform programme for secondary and post-secondary education for 14-19 year olds, and sets out its response to the recommendations of the Tomlinson report (Working Group on 14-19 Reform final report available at www.14-19reform.gov.uk) published in October 2004. Proposals include: i) retention of GCSEs and A levels as the cornerstones of the education system (rather than adopting a universal baccalaureate-style qualification), but making improvements such as ensuring it is impossible to get a GCSE grade C or above without functional numeracy and literacy skills, promoting science GCSEs, allowing the most able A level students to take HE modules in the sixth form, and reducing the assessment burden at A level; ii) introducing new specialised Diplomas, covering both academic and vocational subjects as well as work experience, at three levels equivalent to foundation, GCSE and advanced level. The first four Diplomas will be available by 2008 for information and communication technology (ICT), engineering, health and social care, creative and media subjects; iii) developing a pilot programme for 14-16 year olds by 2007-08, based on the post-16 Entry to Employment programme, which will give pupils intensive personal guidance and support, involve significant work-based learning, lead to a level 1 Diploma with a range of further options including apprenticeships; iv) other proposals including introducing models of moderated teacher assessment in compulsory subjects to help raise standards across the curriculum; and introducing a 'pupil profile' for all 14 year old to record their cross-curricula achievements.

Build the knowledge and skills required to become an Early Years Practitioner with this brand new textbook for Level 2, written by bestselling early years experts Penny Tassoni and Louise Burnham. - Ensure learners are fully prepared for assessment with full coverage of all units. - Encourage students to gauge their own progress with regular Checkpoint quizzes. - Prepare for working in real settings with practically-focused Dos and Don'ts. - Motivate students with engaging language, attractive photographs and a colourful design.
