

Concise To Jazz 7th Edition

Covers more than eighteen thousand recordings and more than 1,700 musicians from across the jazz spectrum and includes a history of the different types of jazz, the evolution of jazz instruments, and essays on styles.

Since it was first published in 1993, the Sourcebook for Research in Music has become an invaluable resource in musical scholarship. The balance between depth of content and brevity of format makes it ideal for use as a textbook for students, a reference work for faculty and professional musicians, and as an aid for librarians. The introductory chapter includes a comprehensive list of bibliographical terms with definitions; bibliographic terms in German, French, and Italian; and the plan of the Library of Congress and the Dewey Decimal music classification systems. Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items, this updated and expanded edition accounts for the rapid growth in new editions of standard works, in fields such as ethnomusicology, performance practice, women in music, popular music, education, business, and music technology. These enhancements to its already extensive bibliographies ensures that the Sourcebook will continue to be an indispensable reference for years to come.

This quick reference book of musical terminology includes brief biographical sketches of musicians, composers, vocalists, and conductors.

"APA 7th Manual Made Easy" was written specifically for the updated edition of the American Psychological Association Publication Manual (APA 7th edition) and includes 80+ examples of different kinds of references. ----- Revised according to the 7th edition of the APA Manual, this guide is

Lists over 750 sources focusing on the reference needs of adults. The primary objective was to select quality reference tools which cover many different topics. Topics include general works, biography, philosophy, religion, language, literature, visual arts, applied sciences, sports and recreation, home life, social customs and education. This single-source guide to selected biographical dictionaries and directories gives complete bibliographic information along with price and a critical evaluation for each entry.

The Encyclopedia of the Modern World delves into the period from 1750 to the present, providing special

Get Free Concise To Jazz 7th Edition

attention to social, economic, cultural and political topics applicable to the time. The breadth of knowledge offered within this multivolume set is astounding, with features spanning articles on countries, regions, and ethnic groups; themes involving social history, demography, family life, politics, economics, religion, thought, education, science and technology, and culture; events such as major wars; and extensive coverage of the United States. Detailed articles cover not only the major facts but the interpretations as well and are written for readers who are not specialists in the particular area. Enriched with over 800 halftones and 50 maps, this reference work is essential for any scholar, general reader, collector or curator interested in this rich and varied time in history. Through its fluent global coverage The Encyclopedia of Modern World provides information about and interpretation of major developments across particular regions both salient events and regional perspectives on common themes such as politics, demography, social class, and gender. Readers can explore topics that have global implications, such as migration, childhood, and foods, topics that can be viewed through a combination of global patterns and key comparisons. Entries also shed light on standard geographic and ethnic units, such as Scandinavia, Korea, or the Gypsies, in the modern period. The Encyclopedia presents unprecedented coverage of global processes and institutions themselves including the International Red Cross, and the League of Nations.

Guide to Reference Material, 5th edition: Volume 1, Science and Technology (1989), Volume 2, Social and historical sciences, philosophy and religion (1990), and Volume 3, Generalia, language and literature, the arts (1991). There are more than 3,000 entries, forming an updated compilation of what are considered to be the basic items in the main volumes, plus some more recent material up to April 1992.

For fifty years *The Jazz Book* has been the most encyclopedic interpretive history of jazz available in one volume. In this new seventh edition, each chapter has been completely revised and expanded to incorporate the dominant styles and musicians since the book's last publication in 1992, as well as the fruits of current research about earlier periods in the history of jazz. In addition, new chapters have been added on John Zorn, jazz in the 1990s and beyond, samplers, the tuba, the harmonica, non-Western instruments, postmodernist and repertory big bands, how the avant-garde has explored tradition, and many other subjects. With a widespread resurgence of interest in jazz, *The Jazz Book* will continue well into the 21st century to fill the need for information about an art form widely regarded as America's greatest contribution to the world's musical culture.

An annotated bibliography lists reference sources for those academic and public libraries that can't buy everything but want the best for their patrons

This abridged version of *Jazz Styles* was developed in response to requests for an introductory book offering the clarity and accuracy of *Jazz Styles* with 1/2 the size, 1/4 the

Get Free Concise To Jazz 7th Edition

number of names and tune titles, and 1/3 the number of musician profiles. Using a simple, yet lively writing style, and an abundance of illustrations, it is easily accessible to readers with no previous knowledge of music -- or any technical sophistication. Written by an active jazz musician and eminent jazz historian, this brief yet substantive introduction to jazz examines how jazz originated, how it is made, what to listen for, the major style eras, and the individual styles of 40 historically significant jazz musicians. These styles include early jazz (Dixieland); swing; bebop; cool jazz; hard bop; avant-garde of the 1960s and 70s; and jazz-rock fusion. A text for courses in jazz appreciation, focusing on American instrumental jazz and emphasizing descriptions of jazz styles rather than a decade-by-decade chronicle. Contains chapter summaries, bandw photos, a chronology, guides to jazz albums and videos, and separate appendices on elements of music for musicians and nonmusicians. In this sixth edition chapters begin on the same page numbers as the fifth. Music cassettes/CD-ROMs are available. For high school through college students with no previous knowledge of music. Annotation copyrighted by Book News, Inc., Portland, OR. Cross-Rhythms investigates the literary uses and effects of blues and jazz in African-American literature of the twentieth century. Texts by James Baldwin, Ralph Ellison, Langston Hughes, Zora Neale Hurston, Gayl Jones, Toni Morrison and Ishmael Reed variously adopt or are consciously informed by a jazz aesthetic; this aesthetic becomes part of a strategy of ethnic identification and provides a medium with which to consider the legacy of trauma in African-American history. These diverse writers are all thoroughly immersed in a socio-cultural context and a literary aesthetic that embodies shifting conceptions of ethnic identity across the twentieth century. The emergence of blues and jazz is, likewise, a crucial product of, as well as catalyst for, this context, and in their

own aesthetic explorations of notions of ethnicity these writers consciously engage with this musical milieu. By examining the highly varied manifestations of a jazz aesthetic as possibly the fundamental common denominator which links these writers, this study attempts to identify an underlying unifying principle. As the different writers write against essentializing or organic categories of race, the very fact of a shared engagement with jazz sensibilities in their work redefines the basis of African-American communal identity. From the mid-1950s to the late 1970s, jazz was harnessed as America's "sonic weapon" to promote an image to the world of a free and democratic America. Dizzy Gillespie, Dave Brubeck, Duke Ellington and other well-known jazz musicians were sent around the world – including to an array of Communist countries – as "jazz ambassadors" in order to mitigate the negative image associated with domestic racial problems. While many non-Americans embraced the Americanism behind this jazz diplomacy without question, others criticized American domestic and foreign policies while still appreciating jazz – thus jazz, despite its popularity, also became a medium for expressing anti-Americanism. This book examines the development of jazz outside America, including across diverse historical periods and geographies – shedding light on the effectiveness of jazz as an instrument of state power within a global political context. Saito examines jazz across a wide range of regions, including America, Europe, Japan and Communist countries. His research also draws heavily upon a variety of sources, primary as well as secondary, which are accessible in these diverse countries: all had their unique and culturally specific domestic jazz scenes, but also interacted with each other in an interesting dimension of early globalization. This comparative analysis on the range of unique jazz scenes and cultures offers a detailed understanding as to how jazz has been interpreted in various

Get Free Concise To Jazz 7th Edition

ways, according to the changing contexts of politics and society around it, often providing a basis for criticizing America itself. Furthering our appreciation of the organic relationship between jazz and global politics, Saito reconsiders the uniqueness of jazz as an exclusively "American music." This book will be of interest to students and scholars of international relations, the history of popular music, and global politics.

Includes no. 53a: British wartime books for young people.

Concise Guide to Jazz Pearson College Division

Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

This Macquarie Concise Dictionary Seventh Edition provides an up-to-date reference of Australian English, with wide coverage to meet the needs of the general dictionary user. Based on the comprehensive Macquarie Dictionary Seventh Edition, this volume includes words and meanings which are particular to our variety of English, as well as those common to the whole English-speaking world, with evidence sourced from corpus data.
