

Dmt And The Soul Of Prophecy A New Science Spiritual Revelation In Hebrew Bible Rick Strassman

Naturally occurring DMT may produce prophecy-like states of consciousness and thus represent a bridge between biology and religious experience • Reveals the striking similarities between the visions of the Hebrew prophets and the DMT state described by Strassman's research volunteers • Explains how prophetic and psychedelic states may share biological mechanisms • Presents a new top-down "theoneurological" model of spiritual experience After completing his groundbreaking research chronicled in *DMT: The Spirit Molecule*, Rick Strassman was left with one fundamental question: What does it mean that DMT, a simple chemical naturally found in all of our bodies, instantaneously opens us to an interactive spirit world that feels more real than our own world? When his decades of clinical psychiatric research and Buddhist practice were unable to provide answers to this question, Strassman began searching for a more resonant spiritual model. He found that the visions of the Hebrew prophets--such as Ezekiel, Moses, Adam, and Daniel--were strikingly similar to those of the volunteers in his DMT studies. Carefully examining the concept of prophecy in the Hebrew Bible, he characterizes a "prophetic state of consciousness" and explains how it may share biological and metaphysical mechanisms with the DMT effect. Examining medieval commentaries on the Hebrew Bible, Strassman reveals how Jewish metaphysics provides a top-down model for both the prophetic and DMT states, a model he calls "theoneurology." Theoneurology bridges biology and spirituality by proposing that the Divine communicates with us using the brain, and DMT--whether naturally produced or ingested--is a critical factor in such visionary experience. This model provides a counterpoint to "neurotheology," which proposes that altered brain function simply generates the impression of a Divine-human encounter. Theoneurology addresses issues critical to the full flowering of the psychedelic drug experience. Perhaps even more important, it points the way to a renewal of classical prophetic consciousness, the soul of Hebrew Bible prophecy, as well as unexpected directions for the evolution of contemporary spiritual practice.

A smorgasbord of subjects designed to bend reality and stretch the reader's mind.

A clinical psychiatrist explores the effects of DMT, one of the most powerful psychedelics known. • A behind-the-scenes look at the cutting edge of psychedelic research. • Provides a unique scientific explanation for the phenomenon of alien abduction experiences. From 1990 to 1995 Dr. Rick Strassman conducted U.S. Government-approved and funded clinical research at the University of New Mexico in which he injected sixty volunteers with DMT, one of the most powerful psychedelics known. His detailed account of those sessions is an extraordinarily riveting inquiry into the nature of the human mind and the therapeutic potential of psychedelics. DMT, a plant-derived chemical found in the psychedelic Amazon brew, ayahuasca, is also manufactured by the human brain. In Strassman's volunteers, it consistently produced near-death and mystical experiences. Many reported convincing encounters with intelligent nonhuman presences, aliens, angels, and spirits. Nearly all felt that the sessions were among the most profound experiences of their lives. Strassman's research connects DMT with the pineal gland, considered by Hindus to be the site of the seventh chakra and by Rene Descartes to be the seat of the soul. *DMT: The Spirit Molecule* makes the bold case that DMT, naturally released by the pineal gland, facilitates the soul's movement in and out of the body and is an integral part of the birth and death experiences, as well as the highest states of meditation and even sexual transcendence. Strassman also believes that "alien abduction experiences" are brought on by accidental releases of DMT. If used wisely, DMT could trigger a period of remarkable progress in the scientific exploration of the most mystical regions of the human mind and soul.

DMT Meditation: The guide to channeling your endogenous DMT. Humans have extraordinary abilities that range from the physical to the mental and spiritual. The pineal gland within the human brain is responsible for producing and releasing a natural powerful psychedelic molecule known as DMT, dimethyltrptamine. DMT has been linked to birth, death, and reincarnation, as well as a multitude of other fascinating experiences. This guide shows how to activate the pineal gland and control the release of this molecule into the human body for use on command. Dreams, visions, fractals, and many odd phenomenon can be traced to the pineal gland, but there are also benefits in learning this meditation technique. From increased energy to happiness and treating depression to heightened mental control, DMT has the ability to expand human consciousness. Part of its function within the body is the healing factor know to self heal mentally and physically. This guide will also focus on body awareness, sensing and utilizing internal energy, and opening up people's minds to a powerful and eye opening experience that is not found in modern academia and colleges. A meditation practice long forgotten and buried in secrecy is at your fingertips, but ready for only those who have the courage to make the mental journey. -Increased Vitality on Command -Treat and Mitigate Depression -Find Happiness Within and Around -Greater Perspective on Life -Awareness of Internal Energy and Frequencies -Increased Mental Strength and Abilities -Self Heal, Relaxation, and Calmness

Are you interested in uncovering more about the powerful psychedelic drug DMT? Do you want to learn about people's experiences and the transformational impact it had on their minds, emotions, and lives? Want to make sure you don't have a bad trip if you decide to take it? Inside this profound book, you'll uncover three detailed and insightful accounts of DMT trips, and how these trips impacted the minds and lives of its users. With an exploration of the spiritual and psychedelic effects of DMT, as well as their hallucinations and what they learned about themselves and others, this book allows you to peer behind the curtain of DMT and see it for the powerful tool of self-discovery that it is. DMT has been used in ancient cultures for thousands of years to communicate with spirits, invoke visions, and allow people to interact with their higher selves and deeper consciousness. Now, you can learn about the incredible effects of this drug from people who have experienced it first-hand. Also included is a Frequently Asked Question section including questions such as: Can you die from taking DMT? What does a bad trip feel like? How long does a bad trip last? What is ego death on DMT? With personal stories, a down-to-earth tone, and a wealth of valuable insights, this guide provides an in-depth look at the secrets of DMT. "It was during my eighth or ninth plant medicine journey that I was finally getting a real sense of freedom. I was feeling so elated that I told the moon I had a special request. I explained that this life had been so full of pain for me that I didn't think I could do it all again. So I asked her if in my next life she could make sure that I found the plant medicine as soon as possible. Her reply floored me. She typed, 'Gerry, that's a request about next time, but it's the same one you used last time.'" Plant medicine? The moon typing? It probably seems incomprehensible. Gerard Armond Powell was a rags-to-riches success story—a member of the 1 percent—but also an extremely unhappy person with multiple addictions. On a fast track to destroying every relationship that ever mattered to him and considering suicide, he was looking for a miracle, a way out. He found it in the form of plant medicine and a shaman who introduced him to the truth of his life, and laid the groundwork for a psycho-spiritual journey that would lead him to reconnect with his soul, heal his addictions, and, finally, achieve a lasting sense of peace and happiness. This experience changed Powell, and convinced him to share the universal truths he learned with as many people as he could,

which he does at the acclaimed Rythmia Life Advancement Center in Costa Rica, and now with readers in *Sh*t the Moon Said*. This mesmerizing story gives readers a blueprint to chart their own course to happiness. The first step is to learn who they really are and the possibilities of what they can still become. Second, they have to achieve a reconnection with their souls. And third, they must heal their hearts. *Sh*t the Moon Said* provides us with an irreverent way of highlighting our shared unconscious wisdom and its life-changing potential. Powell's candid tale and unlikely journey will help inspire readers to know themselves better, and to find the path to their own greatest redemption.

Annotation. Drawing upon 15 years of deep research with many psychedelic compounds and plants, *Articulations* is an illuminating inquiry into the depths of the human mind in relation to these most intriguing substances. *Articulations* explores the many different plants and compounds available in the modern day, conducive 'mindsets' and understandings on how these plants and compounds can be most constructively utilized. *Articulations* presents an uncompromisingly clear analysis of the various ontological quandries which are commonly brought up in the psychedelic state, such as the origins of visions, the nature of the beings, and how authentic healing of the human psyche can most effectively proceed through the conscious use of psychedelics.

Terence McKenna covers wide-ranging and profound topics in his uniquely witty style and rare depth of intelligence. Topics include: the "Stoned Ape" Theory of evolution, consciousness expansion, the purpose of history, extraterrestrial possibilities, interdimensional communication, the DMT trip experience, shamanic science, alchemy and Hermeticism, the Logos, the eschaton, and many other spectra. Since the mid-1950s, the psychoactive compound DMT has attracted the attention of experimentalists and prohibitionists, scientists and artists, alchemists and hyperspace emissaries. While most known as a crucial component of the "jungle alchemy" that is ayahuasca, DMT is a unique story unto itself. Until now, this story has remained untold. *Mystery School in Hyperspace* is the first book to delve into the history of this substance, the discovery of its properties, and the impact it has had on poets, artists, and musicians. DMT has appeared at crucial junctures in countercultural history. William Burroughs was jacking the spice in Tangier at the turn of the 1960s. It was present at the meeting between Ken Kesey's Merry Pranksters and Tim Leary's associates. It guided the inception of the Grateful Dead in 1965. It showed up in Berkeley in the same year, falling into the hands of Terence McKenna, who would eventually become its champion in the post-rave neo-psychedelic movement of the 1990s. Its indole vapor drifted through Portugal's Boom Festival and has been evident at Nevada's Burning Man, where DMT has been adopted as spiritual technology supplying shape, color, and depth to a visionary art movement. The growing prevalence of use is evident in a vast networked independent research culture, and in its impact on fiction, film, music and metaphysics. As this book traces the effect of DMT's release into the cultural bloodstream, the results should be of great interest to contemporary readers. The book permits a broad reading audience to join ongoing debates in studies in consciousness and theology where the brain is held to be either a generator or a receiver of consciousness. The implications of the "spirit molecule" or "the brain's own psychedelic" among other theories illustrate that DMT may lift the lid on the Pandora's Box of consciousness. Features a foreword by Dennis McKenna, cover art by Beau Deeley, and thirty color illustrations by various artists, including Alex Grey, Android Jones, Martina Hoffmann, Luke Brown, Carey Thompson, Adam Scott Miller, Randal Roberts, along with Jay Bryan, Cyb, Orryelle Defenestrated-Bascule, Art Van D'lay, Stuart Griggs, Jay Lincoln, Gwyllm Llwydd, Shiptu Shaboo, Marianna Stelmach, and Mister Strange. Regarded as the "nightmare hallucinogen" or celebrated as the "spirit molecule," labelled "psychotogenic" or "entheogenic," considered a dangerous drug or the suspected X-factor in the evolution of consciousness, DMT is a powerful enigma. Documenting the scientists and artists drawn into its sphere of influence, navigating the liminal aesthetics of the "breakthrough" experience, tracing the novum of "hyperspace" in esoteric and science fiction currents, *Mystery School in Hyperspace* excavates the significance of this enigmatic phenomenon in the modern world. Exposing a great many myths, this cultural history reveals how DMT has had a beneficial influence on the lives of those belonging to a vast underground network whose reports and initiatives expose drug war propaganda and shine a light in the shadows. This conversation is highly relevant at a time when significant advances are being made to lift the moratorium on human research with psychedelics.

DMT and the Soul of Prophecy A New Science of Spiritual Revelation in the Hebrew Bible Simon and Schuster

Cutting-edge explorations and discussions of DMT experiences and plant sentience from leading luminaries in the field of psychedelic research • Includes contributions from Rupert Sheldrake, Rick Strassman, Dennis McKenna, Graham Hancock, Jeremy Narby, Erik Davis, Peter Meyer, David Luke, and many others • Explores DMT beings, plant sentience, interspecies communication, discarnate consciousness, dialoguing with the divine, the pineal gland, the Amazonian shamanic perspective on Invisible Entities, and the science behind hallucinations Encounters with apparently sentient beings are reported by half of all first time users of the naturally occurring psychedelic DMT, yet the question of DMT beings and plant sentience, interspecies communication, discarnate consciousness, and perhaps even dialoguing with the divine has never been systematically explored. In September 2015, ten of the world's leading luminaries noted for exploring the mysterious compound DMT (dimethyltryptamine) gathered with other researchers at Tyringham Hall in England to discuss the subject. Over three days, they pooled their expertise from a wide range of subjects--archaeology, anthropology, religious studies, psychology, neuroscience, chemistry, and psychopharmacology, to name a few--to explore the notion of "entheogenic plant sentience" and the role of DMT as a conduit between Spirit and Matter. Offering cutting-edge insights into this visionary domain, this book distills the potent exchange of ideas that occurred at Tyringham Hall, including presentations and discussions on DMT entities, the pineal gland, the possibility of DMT as a chemical messenger from an extraterrestrial civilization, the Amazonian shamanic perspective on Invisible Entities, morphic resonance, and the science behind hallucinations. Contributors to the talks and discussions include many leading thinkers in this field, including Rupert Sheldrake, Rick Strassman, Dennis McKenna, Graham Hancock, Jeremy Narby, Erik Davis, Ede Frecska, Luis Eduardo Luna, Bernard Carr, Robin Carhart-Harris, Graham St. John, David Luke, Andrew Gallimore, Peter Meyer, Jill Purce, William Rowlandson, Anton Bilton, Vimal Darpan, Santha Faiia, and Cosmo Feilding Mellen.

Rabbi Shefa Gold, beloved teacher of chant, Jewish mysticism, prayer and spirituality, introduces you to this transformative spiritual practice as a way to unlock the power of sacred texts and take prayer and meditation into the delight of your life.

Dr. Michael Newton is world-famous for his spiritual regression techniques that take hypnotic subjects back to their time in the spirit world. His two best-selling books of client case studies, *Journey of Souls* and *Destiny of Souls*, have left thousands of readers eager to discover their own afterlife adventures, their soul companions and guides, and their purpose in this lifetime. Now, for the first time in print, Dr. Newton reveals his step-by-step methods. His experiential approach to the spiritual realms sheds light on the age-old questions of who we are, where we came from, and why we are here. This groundbreaking guidebook, designed for both hypnosis professionals and the general public, completes the afterlife trilogy by Dr. Newton.

MAKING DMT SIMPLIFIED The Complete step by step Guide to making DMT spirit Molecule even as a beginner DMT is known as 'The Spirit Molecule' - and for good reason. DMT is one of the most powerful psychedelics on the planet, naturally occurring in many species of plants, and is thought to be released in tiny amounts in mammal brains. Although the issue is controversial, it's also possible that the release of natural DMT is a factor in out-of-body experiences or spiritual states. DMT is a molecule that mimics the neurotransmitter serotonin, much like the other classic psychedelics LSD and psilocybin. DMT's psychological effects are mostly due to its binding to the 5-HT_{2A} receptor, which is found mostly in areas of the brain associated with high-level cognition: self-awareness, emotions and introspection. When smoked or injected intravenously, DMT causes a very rapid, very intense psychedelic experience which lasts a few minutes. Users report the feeling of being ripped from their bodies, and thrown through space at incredible speeds. DMT produces intense visual and auditory hallucinations of

otherworldly landscapes, hidden dimensions and god-like beings. It often produces deep introspection in its users, allowing the revisitation of past memories and providing a fresh perspective on life. In this book I will be teaching you the best methods and techniques for extracting DMT and the various functions of DMT. All questions concerning DMT will be answered in this guide. DMT THE ABSOLUTE GUIDE ON DMT, THE SOUL MOLECULES DMT is known as 'The soul Molecule' and in light of current situation. DMT is one of the most amazing hallucinogenics on earth, usually happening in numerous types of plants, and is believed to be discharged in tiny sums in well evolved creature brain. Despite the fact that the issue is questionable, it's additionally conceivable that the arrival of regular DMT is a factor in out-of-body encounters or ghostly states. This instructional exercise will guide you in step by step on what dmt is all about, With this you can get spiritual awakenings with things that they have seen in trance like states induced by psychedelics such as ayahuasca, magic mushrooms, LSD, and DMT so as to relieve anxiety and cure depression GRAB YOUR COPY!!!

The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential—now in paperback. Wim Hof has a message for each of us: “You can literally do the impossible. You can overcome disease, improve your mental health and physical performance, and even control your physiology so you can thrive in freezing temperatures.” With his New York Times–bestselling debut book, *The Wim Hof Method*, this trailblazer of human potential shared a method that anyone can use—not just extreme athletes or spiritual masters—to supercharge one’s capacity for strength, health, and happiness. Now, this popular book is available in paperback. Wim Hof has become a modern legend for his astounding achievements, such as withstanding extreme temperatures, breaking world records, and running barefoot marathons over deserts and ice fields. In his gripping and passionate voice, Hof shares the story of how he developed his method, along with testimonials and new insights from university research studies on the method’s amazing results. With guidance suited for any reader—young or old, sick or healthy—you’ll learn how to harness three key elements—Cold, Breathing, and Mindset—to take charge of your own mind and metabolism. The most important result of Hof’s method goes beyond improved health or performance—it is a path for reconnecting with your spiritual nature. “With these practices, you awaken to your inner source of power and fulfillment,” he says. “You find you can control your destiny.”

An investigation into experiences of other realms of existence and contact with otherworldly beings • Examines how contact with alien life-forms can be obtained through the “inner space” dimensions of our minds • Presents evidence that other worlds experienced through consciousness-altering technologies are often as real as those perceived with our five senses • Correlates science fiction’s imaginal realms with psychedelic research For thousands of years, voyagers of inner space--spiritual seekers, shamans, and psychoactive drug users--have returned from their inner imaginal travels reporting encounters with alien intelligences. *Inner Paths to Outer Space* presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings. Based on their more than 60 combined years of research into the function of the brain, the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs. They contend that our centuries-old search for alien life-forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds. The authors show that these “alien” worlds encountered through altered states of human awareness, either through the use of psychedelics or other methods, possess a sense of reality as great as, or greater than, those of the ordinary awareness perceived by our five senses.

The Entheological Paradigm is a must-read for anyone who is interested in DMT, 5-MeO-DMT, and the nature of unitary consciousness. In this groundbreaking work, entheogenic researcher, Martin Ball, Ph.D., presents a coherent system of analysis for understanding the psychedelic experience, human identity and consciousness, and the nature of reality as a unified energetic system. Free from speculative metaphysics, *The Entheological Paradigm* promises a revolution in humanity's understanding of itself as well as gives practical methodology for achieving non-dual awareness. Provocative, challenging, and ultimately liberating, this collection of essays is bound to leave its mark in the quest to understand the meaning of it all. Includes the essays, "Digesting the Spirit Molecule," "The Avatar Dreamhunt," "Energy, Ego, and Entheogens," and much more.

True Report on the Secret Research Programme in the Deep DMT-Dimensions: This work spotlights the secret psychedelic programme covertly established to explore and chart the furthest frontiers of the DMT Multiverse, chronicling the author's first-hand account of his own unique experiences within the bizarre cartography of DMT Hyperspace. The book also speculates upon the existence of AATIP, the Pentagon's once clandestine investigation into the modern UFO phenomenon; as well as highlighting the CIA's now declassified report on the proposed neuroscience of the out-of-body experience, as pioneered by the famous Monroe Institute. An authentic historical document or merely humorous cosmic Creepypasta? The critical reader will need to decide for themselves its veracity, through closer examination of its attributed sources.

A journey from Burning Man to the Akashic Field that suggest how 5-MeO-DMT triggers the human capacity for higher knowledge through direct contact with the zero-point field • Examines Bufo alvarius toad venom, which contains the potent natural psychedelic 5-MeO-DMT, and explores its entheogenic use • Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The venom from Bufo alvarius, an unusual toad found in the Sonoran desert, contains 5-MeO-DMT, a potent natural chemical similar in effect to the more common entheogen DMT. The venom can be dried into a powder, which some researchers speculate was used ceremonially by Amerindian shamans. When smoked it prompts an instantaneous break with the physical world that

causes out-of-body experiences completely removed from the conventional dimensions of reality. In Tryptamine Palace, James Oroc shares his personal experiences with 5-MeODMT, which led to a complete transformation of his understanding of himself and of the very fabric of reality. Driven to comprehend the transformational properties of this substance, Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man. He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero-point field of modern physics, known to the ancients as the Akashic Field. In the quantum world of nonlocal interactions, the line between the physical and the mental dissolves. 5-MeO-DMT, Oroc argues, can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to Western civilization.

Questions for the Lion Tamer is a book that presents a basic look at changes within our internal biology that correlates with mystical experiences. The molecule known as "DMT" seems to have potential in terms of providing an explanation for changes in our perception and abilities during these mystical experiences. There also seems to be an electrical component that coincides with "supernormal" traits that have seemingly existed since the beginning of mankind. You're about to discover the crucial information regarding psychedelic drugs. It can be overwhelming if you are trying to find honest, factual information because of all the random opinions out there on the internet. You also have to be careful about the misinformation that is coming from online sources, especially those with financial incentives. This book serves to be an unbiased guide so that you can understand all of the important information before you invest money or time into trying various psychedelic drugs. This book goes into the origins and history of psychedelic drugs, how they work, the various types of psychedelics, the positive and negative effects of consuming them, as well as the legality and dangers involved. By investing in this book, you can get a grasp of the topic so that you can make a solid decision about what you put into your body, or even help other people in your life.

A new 'The Doors of Perception' for the 21st century? A visionary journey from cynicism to shamanism by a brilliant young US writer.

Most scholars dismiss research into the paranormal as pseudoscience, a frivolous pursuit for the paranoid or gullible. Even historians of religion, whose work naturally attends to events beyond the realm of empirical science, have shown scant interest in the subject. But the history of psychical phenomena, Jeffrey J. Kripal contends, is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion. Kripal grounds his study in the work of four major figures in the history of paranormal research: psychical researcher Frederic Myers; writer and humorist Charles Fort; astronomer, computer scientist, and ufologist Jacques Vallee; and philosopher and sociologist Bertrand Méheust. Through incisive analyses of these thinkers, Kripal ushers the reader into a beguiling world somewhere between fact, fiction, and fraud. The cultural history of telepathy, teleportation, and UFOs; a ghostly love story; the occult dimensions of science fiction; cold war psychic espionage; galactic colonialism; and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible*, a dazzling and profound look at how the paranormal bridges the sacred and the scientific.

A guide to the practice of the Lesser Kan and Li that gives birth to the soul body and the immortal spirit body • Shows how to awaken higher consciousness through practices in total darkness that stimulate the release of DMT by the pineal gland • Shows how to transform sexual energy into life-force energy to feed the soul body The Lesser Enlightenment of Kan and Li practice combines the compassion of the heart energies (yang/fire) with sexual energies originating in the kidneys (yin/water) to form and feed the soul or energy body. Practice of the Chinese formula Siaow Kan Li (yin and yang mixed) uses darkness technology to literally "steam" the sexual energy (jing) into life-force energy (chi) by re-versing the location of yin and yang power. This inversion places the heat of the bodily fire from the heart center beneath the coolness of the bodily water of the sexual energy of the perineum, thereby activating the liberation of transformed sexual energy. Darkness technology has been a key element of Taoist practice--and of all Inner Alchemy traditions--throughout the ages. A total darkness environment stimulates the pineal gland to release DMT into the brain. The darkness actualizes successively higher states of consciousness, correlating with the accumulation of psychedelic chemicals in the brain. In the darkness, mind and soul begin to wander freely in the vast realms of psychic and spiritual experience. Death is no longer to be feared because life beyond the physical body is known through direct experience. The birth of the soul is not a metaphor. It is an actual process of converting energy into a subtle body. Developing the soul body is the preparation for the growth of the immortal spirit body in the practice of the Greater Enlightenment of Kan and Li. *Being Human* is the extraordinary new book that articulates a grand unified vision of reality through the Entheological Paradigm. Skillfully avoiding all speculation and metaphysics, Martin W. Ball, Ph.D., presents a concise explanation for the fundamental nature of reality as the fractal expression of a Unitary Energy Being (God). Ball explores how intentional work with entheogens, such as 5-MeO-DMT, gives individuals direct access to their immediate energetic natures. Through such practices, individuals can liberate themselves from the restrictive confines of their illusion-bound egos and embrace their personalities and bodies as direct expressions of God in physical and conscious form. Radical in its implications, stunning for its simplicity, *Being Human* is humanity's long-awaited guide to genuine fulfillment, transcendence, and global harmony and peace. If you feel ready to understand and experience the truth for yourself, then *Being Human* is the only book you will ever need.

Two great classics come to life in one of the most loved books in American History. Remastered to include Illustrated exercises, a biography of Aldous Huxley, and including the full essay of Heaven and Hell, and *The Doors to Perception*, this book is a great gift to those who are unfamiliar with his work, or may have forgotten about Huxley's famous contemplations of life and death. -

Would you like to start a trip inside of your spirit and soul? Do you know what DMT is and which role plays in human

consciousness? The word DMT stands for Dimethyltryptamine and it is a psychedelic drug that can induce out of body or near death experiences, intense hallucinations and even apparent alien abductions. If you smoke it, you will appear to pass out for several minutes, where you'll have euphoric insights into other dimensions. A DMT trip literally transports you to another reality. Users report access to a completely different plane of consciousness. Spirits, aliens, even elves and other strange creatures are encountered in worlds that users report seem to be inhabited by other-worldly foreign intelligence. If you really want to have an experience like that and explore the depths of your spirit you need a guide like "DMT: The Spirit Molecule- Near-death and Mystical Experiences" by Albert Piaget. Here's what you're going to find inside: ?Psychedelic Drugs: how science and society see them ?the Pineal Gland ?getting DMT: feelings and thinking ?mystical states, dying and unseen worlds ?the future of Psychedelic research ...and much more!

Dr. Gerardo Ruben Sandoval Isaac s journey is a tragic and reckless yet ecstatic story about personal transformation and the life-changing properties of 5-MeO-DMT, an astounding entheogenic substance. After an initiation into the world of entheogens at the age of 13, Dr. Gerry continues his divine investigations by experiencing LSD, psilocybin mushrooms, and Salvia divinorum, while simultaneously earning a degree in medicine. When events turn dark in his life, he turns to more destructive substances, and becomes addicted to crack cocaine. But after an experience with Sonoran desert toad medicine, which contains 5-MeO-DMT, Dr. Gerry turns his life around. That such a profound gift can come from the secretions of a Sonoran desert toad is one of the great cosmic curiosities of existence. Who would have guessed that a toad might hold the key to the ultimate transformation of human life? Today, Dr. Gerry embraces his mission to share the wonders of 5-MeO-DMT with the world. In the realm of entheogenic literature, there are only a handful of authors who have written at any length on 5-MeO-DMT. We now can add Dr. Gerry to the slowly growing list of those willing to share their knowledge of this most profound molecule. Dr. Gerry says, Now is the time that humanity needs this potent medicine more than ever. "

Do you ever feel like you're emotionally on a roller coaster? Not just because of your unstable emotions or relationships, but also the wavering sense of who you are. Would you like to start a trip inside of your spirit and soul, maybe also discovering why you have these reactions? These type of feelings may be caused by BPD (Borderline Personality Disorder). If you have BPD, everything feels unstable: your relationships, moods, thinking, behavior, even your identity. Small things can trigger intense reactions. It's easy to understand how this emotional volatility and inability to self-soothe leads to relationship turmoil and impulsive behavior. BPD is treatable, but it requires to dig deep into your spirit and soul looking for the causes of this disease. ...and that's possible thanks to the use of DTM (Dimethyltryptamine) DTM is a Psychedelic drug that transports you to another reality. Users report access to a completely different plane of consciousness. However this field is very complicated to explain in few words. That's why if you want to elaborate on you need a book like "Psychotherapy and Spirit (2 Books in 1): Borderline Personality Disorder + DTM: The Spirit Molecule" by Albert Piaget. Here's what you'll find: history and causes of Borderline Personality Disorder how can others help a companion or relative with BPD self-help tips Psychedelic Drugs: how science and society see them getting DMT: feelings and thinking ...and much more! DMT, also known as N, N-Dimethyltryptamine, is a naturally occurring molecule that is produced naturally in the lungs of humans. It can also be found in various species of plants and animals throughout the world. In its extracted form, DMT is considered a powerful psychedelic drug and is considered as being highly illegal in most countries throughout the world. However, it is still legal in some countries. As a drug, DMT is most popular in 2 forms. The first being a drink that is commonly referred to as ayahuasca, and the second being the pure extract which is smoked or vaped. It is also thought, that through deep levels of meditation, one can stimulate the human body's natural production of DMT to enter psychedelic states naturally. This book focuses on the telling of the experiences that various humans have had with this molecule. Would you like to start a trip inside of your spirit and soul? Do you know what DMT is and which role plays in human consciousness? The word DMT stands for Dimethyltryptamine and it is a psychedelic drug that can induce out of body or near death experiences, intense hallucinations and even apparent alien abductions. entheogens. The majority of high-dose users report visions of unknown yet curiously familiar alien worlds and encounters with sentient nonhuman presences. At a four-day symposium at Tyringham Hall in England in 2017, twenty of the world's psychedelic luminaries gathered to discuss entheogenic entity encounters, consciousness expansion, visionary experiences, and the future of research in this field. Contributors to the talks and discussions include many leading thinkers, including the late Ralph Metzner, Chris Bache, Whitley Strieber, Jeffrey Kripal, Angela Voss, Bill Richards, Chris Timmerman, Michael Winkelman, Luis Eduardo Luna, Anton Bilton, Bernard Carr, Daniel Pinchbeck, Dennis McKenna, Ede Frecska, and David Luke. This book distills the potent exchange of ideas that occurred at Tyringham Hall, including discussions on DMT beings, encounter experiences, alien abduction, plant sentience, the shamanic use of ayahuasca, neuroscientific DMT research, the connections between LSD and DMT entities, and the nature of mind and reality.

Joseph Levy leads a quiet life in rural Wheaton Arizona. Retired from a long career in psychiatric research and practice, he reads, writes, and walks in the mountains and hills near the Native reservation. His quiet life ends, however, when a dental crown replacement causes trouble just before meeting an internet date in California. Thus begins a year of back-to-back nightmare infections, a drug overdose, and two failed relationships. At every step, Levy is confronted by matters of life and death, love and hate, faith and doubt, trust and betrayal. Most of all, he faces what it means to be sick and to be healthy. He prays to his God, relies on his friends, examines his dreams, and entrusts his psyche to a new therapist. Joseph Levy Escapes Death is a tale of perseverance in the face of adversity. Strassman uses several lenses to view Levy's life: medical, psychoanalytic, and religious--both Buddhist and Jewish. Pathos and humor fill the tale, while enlightening detours examine the Holocaust, cardiovascular physiology and microbiology, and Jewish-Christian relations.
