“Might be just the book to bring out your inner astronomer . . . over 250 pages of breathtaking images from the past 50 years of NASA’s space exploration.” —Parade Preface by Bill Nye
This magnificent volume offers a rich visual tour of the planets in our solar system. More than two-hundred breathtaking photographs from the archives of NASA are paired with extended captions detailing the science behind some of our cosmic neighborhood’s most extraordinary phenomena. Images of newly discovered areas of Jupiter, fiery volcanoes on Venus, and many more reveal the astronomical marvels of space in engrossing detail. Anyone with an interest in science, astronomy, and the mysteries of the universe will delight in this awe-inspiring guide to the wonders of the solar system. “As you turn through the pages, you’re hit with true moments of awe, photos that remind you the power of nature extends beyond our own planet.”

—Houston Chronicle “Breathtaking pictures show the otherworldly magic of the solar system . . . The images are at once humbling and uplifting: Here in the black void of space is Saturn’s frozen moon, Mimas, white and pitted like a galactic golf ball; here is the tiny golden orb called Io, casting a shadow in a perfect inky circle on the marbled surface of Jupiter; here is the great sun, flames spurting from its surface like plumes.” —The Wall Street Journal “[A] gorgeous photographic tour of space . . . The collection is a remarkable reminder of how much has been learned about the planets over the past few decades, solving many mysteries yet introducing many more.” —Publishers Weekly

the seven lords who were banished when Miraz took over the throne. As they sail toward Aslan's country at the edge of the world, they come face to face with many dangers and wonders, including the place where dreams come true. They discover that their quest is more than they imagined and that the world's end is only the beginning...

New York Times bestselling author Cora Carmack's young adult debut: *Roar*. In a land ruled and shaped by violent magical storms, power lies with those who control them. Aurora Pavan comes from one of the oldest Stormling families in existence. Long ago, the ungifted pledged fealty and service to her family in exchange for safe haven, and a kingdom was carved out from the wildlands and sustained by magic capable of repelling the world's deadliest foes. As the sole heir of Pavan, Aurora's been groomed to be the perfect queen. She's intelligent and brave and honorable. But she's yet to show any trace of the magic she'll need to protect her people. To keep her secret and save her crown, Aurora's mother arranges for her to marry a dark and brooding Stormling prince from another kingdom. At first, the prince seems like the perfect solution to all her problems. He'll guarantee her spot as the next queen and be the champion her people need to remain safe. But the more secrets Aurora uncovers about him, the more a future with him frightens her. When she dons a disguise and sneaks out of the palace one night to spy on him, she stumbles upon a black market dealing in the very thing she lacks—storm magic. And the people selling it? They're not Stormlings. They're storm hunters. Legend says that her ancestors first gained their magic by facing a storm and stealing part of its essence. And when a handsome young storm hunter reveals he was born without magic, but possesses it now, Aurora realizes there's a third option for her future besides ruin or marriage. She might not have magic now, but she can steal it if she's brave enough.

Set in a world of goblin wars, stag-sized battle ravens, and assassins who kill with deadly tattoos, Christopher Buehlman's *The Blacktongue Thief* begins a 'dazzling' (Robin Hobb) fantasy adventure unlike any other. Kinch Na Shannack owes the Takers Guild a small fortune for his education as a thief, which includes (but is not limited to) lock-picking, knife-fighting, wall-scaling, fall-breaking, lie-weaving, trap-making, plus a few small magics. His debt has driven him to lie in wait by the old forest road, planning to rob the next traveler that crosses his path. But today, Kinch Na Shannack has picked the wrong mark. Galva is a knight, a survivor of the brutal goblin wars, and handmaiden of the goddess of death. She is searching for her queen, missing since a distant northern city fell to giants. Unsuccessful in his robbery and lucky to escape with his life, Kinch now finds his fate entangled with Galva's. Common enemies and uncommon dangers force thief and knight on an epic journey where goblins hunger for human flesh, krakens hunt in dark waters, and honor is a luxury few can afford. *The Blacktongue Thief* is fast and fun and filled with crazy magic. I can't wait to see what Christopher Buehlman does

down. From unforgettable books like *The Ocean at the End of the Lane* and *American Gods* to ground-breaking comics and graphic novels like *The Sandman* and *Violent Cases*; from big screen fantasies like *Coraline* to small screen epics like *Doctor Who*; and from short stories to songwriting, stage plays to radio plays, journalism to filmmaking, and all points in-between, *The Art of Neil Gaiman* is the first comprehensive, full-colour examination of Gaiman's work to date. Author Hayley Campbell, a close friend of Neil's since she was a small child, spent many months rummaging through Neil's attic to source the never-before-seen manuscripts, notes, cartoons, drawings and personal photographs for this book; these are complemented by artwork and sketches from all of his major works and his own intimate recollections. Each project is examined in turn, from genesis to fruition, and positioned in the wider narrative of Gaiman's creative life, affording unparalleled access to the inner workings of the writer's mind. Utterly comprehensive, lavishly illustrated, *The Art of Neil Gaiman* is the fully authorised account of the life and work of one of the greatest storytellers of all time.

THE SUNDAY TIMES HISTORY BOOK OF THE YEAR 2017 'A beautiful and

thoughtful exploration of the role of the horse in creating our world' James Rebanks 'Scintillating, exhilarating ... you have never read a book like it ... a new way of considering history' Observer The relationship between horses and humans is an ancient, profound and complex one. For millennia horses provided the strength and speed that humans lacked. How we travelled, farmed and fought was dictated by the needs of this extraordinary animal. And then, suddenly, in the 20th century the links were broken and the millions of horses that shared our existence almost vanished, eking out a marginal existence on race-tracks and pony clubs. Farewell to the Horse is an engaging, brilliantly written and moving discussion of what horses once meant to us. Cities, farmland, entire industries were once shaped as much by the needs of horses as humans. The intervention of horses was fundamental in countless historical events. They were sculpted, painted, cherished, admired; they were thrashed, abused and exposed to terrible danger. From the Roman Empire to the Napoleonic Empire every world-conqueror needed to be shown on a horse. Tolstoy once reckoned that he had cumulatively spent some nine years of his life on horseback. Ulrich Raulff's book, a bestseller in Germany, is a superb monument to the endlessly various creature who has so often shared and shaped our fate.

Award-winning team Mahlon and Kinuko Craft bring us a gorgeous and vivid retelling of the classic story of Beauty and the Beast in this stunningly illustrated picture book. The tale is as old as time: A man steals a rose from the garden of a beast. His beautiful daughter sacrifices herself to a life in the beast's castle to protect her father. The beast and the girl fall in love and live happily ever after... This beloved tale is captured with lyrical prose and lavish illustration. In the spirit of the Crafts' previous collaborations, their acclaimed fairy-tale retellings of Cinderella and Sleeping Beauty, this timeless tale is brought to life with sumptuous paintings and ornamental detail in this lush picture book to be cherished at story time again and again.

Not far in the future the seas have risen and the central latitudes are emptying but it's still a good time to be rich in San Francisco where weapons drones patrol the skies to keep out the multitudinous poor. Irina isn't rich, not quite, but she does have an artificial memory that gives her perfect recall, and lets her act as a medium between her various employers and their AIs, which are complex to the point of opacity. It's a good gig, paying enough for the annual visits to the Mayo Clinic that keep her from ageing. Kern has no such access; he's one of the many

refugees in the sprawling drone-built favelas on the city's periphery, where he lives like a monk, training relentlessly in martial arts, scraping by as a thief and an enforcer. Thales is from a different world entirely – the mathematically-inclined scion of a Brazilian political clan, he's fled to L.A. after the attack that left him crippled and his father dead. A ragged stranger accosts Thales and demands to know how much he can remember. Kern flees for his life after robbing the wrong mark. Irina finds a secret in the reflection of a laptop's screen in her employer's eyeglasses. None are safe as they're pushed together by subtle forces that stay just out of sight. Vivid, tumultuous and propulsive, *Void Star* is Zachary Mason's mind-bending follow-up to his bestselling debut *The Lost Books of the Odyssey*. Here is a book that every student and teacher of the combat arts will want to have in their personal library. There has never been a book about the combat arts as unique as this one. If you would love to know the basic tactical principles of some of the world's most effective fighting and combat systems this book is for you. There are more than 30 different arts and their tactical principles in this book. This is a manual you will refer to often as an excellent reference source on tactical principles.

books ever made. This visual encyclopedia of an unknown world written in an unknown language has fueled much debate over its meaning. Written for the information age and addressing the import of coding and decoding in genetics, literary criticism, and computer science, the Codex confused, fascinated, and enchanted a generation. While its message may be unclear, its appeal is obvious: it is a most exquisite artifact. Blurring the distinction between art book and art object, this anniversary edition—redesigned by the author and featuring new illustrations—presents this unique work in a new, unparalleled light. With the advent of new media and forms of communication and continuous streams of information, the Codex is now more relevant and timely than ever. A special limited and numbered deluxe edition that includes a signed print is also available.

This 128-page spiral-bound journal features a striking cover image by fantasy artist Brom. The painting, *Miss Muffet*, depicts a sexy, grown-up version of the character, in skintight black and red, seated on a sepulchral marble "tuffet," watching as a black widow spider descends next to her.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

The Frankfurt Book Fair is the leading global industry venue for rights sales, facilitating business-to-buzzness deals and international networks. In this Element, we pursue an Ullapoolist approach to excavate beneath the production of bestsellers at the Fair. Our investigation involved three consecutive years of fieldwork (2017–2019) including interviews and autoethnographic, arts-informed interventions. The Element argues that buzz at the Fair exists in two states: as market-ready media reports and partial, lived experiences linked to mood. The physical structures and absences of the Fair enact its

power relations and direct the flow of books and buzz. Further, the Fair is not only a site for commercial exchange but a carnival of sorts, marked by disruptive historical events and problematic socio-political dynamics. Key themes emerging from the Element are the presence of excess, the pseudo(neo)liberal self-satisfaction of book culture, and the interplay of optimism and pessimism in contemporary publishing.

The impact of *The Late Great Planet Earth* cannot be overstated. The New York Times called it the "no. 1 non-fiction bestseller of the decade." has much to tell you about the imminent future of this planet. In the midst of an out-of-control generation, it reveals a grand design that's unfolding exactly according to plan. The rebirth of Israel. The threat of war in the Middle East. An increase in natural catastrophes. The revival of Satanism and witchcraft. These and other signs, foreseen by prophets from Moses to Jesus, portend the coming of an antichrist . . . of a war which will bring humanity to the brink of destruction . . . and of incredible deliverance for a desperate, dying planet.
