In deciding which models to choose for inclusion in this book selected from Fiat's huge inventory, the author concentrated on three criteria - greatness, size and emotion. Where size is an easy parameter to qualify, greatness is more complicated because it is a combination of of both the manufacturer's and the public's opinion. A car that is highly regarded by the public may not have been a commercial success and vice versa. A truly great car is one that works well for both parties. Emotion may be considered to be an element of greatness in that the public's 'love' for a car is a fantastic benefit for a manufacturer and must be treasured. Fiat have made the mistake of 'improving' an icon on several occasions only to find that public opinion went against them. Fortunately Fiat has been magnanimous enough to respond by giving the car buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of the '70s, '80s and '90s. Nuova Panda carries the banner to the present day.

The format of this work is richly handsome: the two-volume set contains well over 1000 high-quality illustrations. This volume is concerned with the modern movement proper, from 1914 to 1966.

THIS TRANSLATION makes available for the first time to English-speaking readers Petrarch's earliest and perhaps most

important collection of prose letters. They were written for the most part between 1325 and 1366, and were organized into the present collection of twenty-four books between 1345 and 1366. THE COLLECTION represents a portrait of the artist as a young man seen through the eyes of the mature artist. Whether in the writing of poetry, or being crowned poet laureate, or in confessing his faults, describing the dissolution of the kingdom of Naples, summoning up the grandeur of ancient Rome, or in writing to pope or emperor, Petrarch was always the consummate artist, deeply concerned with creating a desired effect by means of a dignified gracefulness, and always conscious that his private life and thoughts could be the object of high art and public interest. AS EARLY AS 1436 Leonardo Bruni wrote in his Life of Petrarch: "Petrarch was the first man to have had a sufficiently fine mind to recognize the gracefulness of the lost ancient style and to bring it back to life." It was indeed the very style or manner in which Petrarch consciously sought to create the impression of continuity with the past that was responsible for the enormous impact he made on subsequent generations. THIS COMPLETE TRANSLATION by Aldo S. Bernardo has long been out of print and is reproduced here in its entirety in three volumes. Vol. 1, Books I-VIII. 472 pp. Introduction, notes, bibliography.

This volume addresses a far-reaching aspects of Petrarch research and interpretation: the essential interplay between Petrarch's texts and their material preparation and reception. To read and interpret Petrarch we must come to grips with the fundamentals of Petrarchan philology.

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.
