Managerial Accounting is characterised by a strong pedagogical framework and a dynamic and practical approach that directly demonstrates how students can develop their careers in real life. The text introduces students to the underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method, and uses 'Staircase' exercises in each chapter to build knowledge and help learners to link the content between chapters as they progress through the book. This title uses easy-to-understand, student-friendly language, uncomplicated examples, a logical discussion of concepts that matches student learning processes, and clear visual explanations that support student understanding. Many enquiries into the state of accounting education/training, undertaken in several countries over the past 40 years, have warned that it must change if it is to be made more relevant to students, to the accounting profession, and to stakeholders in the wider community. This book's over-riding aim is to provide a comprehensive and authoritative source of reference which defines the domain of accounting education/training, and which provides a critical overview of the state of this domain (including emerging and cutting edge issues) as a foundation for facilitating improved accounting education/training scholarship and research in order to enhance the educational base of accounting practice. The Routledge Companion to Accounting Education highlights the key drivers of change - whether in the field of practice on the one hand (e.g. increased regulation, globalisation, risk, and complexity), or from developments in the academy on the other (e.g. pressures to embed technology within the classroom, or to meet

accreditation criteria) on the other. Thirty chapters, written by leading scholars from around the world, are grouped into seven themed sections which focus on different facets of their respective themes – including student, curriculum, pedagogic, and assessment considerations.

**Mergers, Acquisitions, and Other Restructuring Activities: An Integrated Approach to Process, Tools, Cases, and Solutions, Tenth Edition**, is the most comprehensive and cutting-edge text available on the subject. Supported by recent peer-reviewed academic research, this book provides many recent, notable deals, precedent-setting judicial decisions, government policies and regulations, and trends affecting M&As, as well as takeover strategies and tactics. Today's policies, politics and economics are reflected in the book's 40 case studies, 90% of which involve deals either announced or completed during the last several years. These cases represent friendly, hostile, highly leveraged, and cross-border transactions in ten different industries, involving public and private firms and those experiencing financial distress. Sections discuss an overview of M&As, key regulations, common strategies and tactics, how managers may choose a business strategy from available options, valuation methods and basic financial modeling techniques, the negotiating process, how deal structuring and financing are inextricably linked, how consensus is reached during the bargaining process, the role of financial models in closing the deal and strategic growth options as alternatives to domestic M&As. Provides a rigorous discussion of the strengths and limitations of financial modeling as applied to M&A and how these models can be applied in various areas Includes new academic research and updated/revised case studies Presents updated M&A tactics and strategies, along with court cases and new regulations governing business combinations, valuation methodologies and financing

Accounting Information for Business Decisions is a business-focused introduction to Accounting for all students - not just those intending to be Accounting majors. Lead students through the real-world business cycle and how accounting information informs decision-making. Departing from the traditional approach taken by other introductory accounting textbooks, students apply both managerial and financial approaches within the topics examined in each chapter, to see the direct impact that Managerial Accounting decisions make on the Financial Accounting processes (and vice versa). The conversational writing engages students

in the theoretical content and how it applies to contemporary real-world scenarios. Students follow a retail coffee business in the relatable Cafe Revive running case study integrated into every chapter, to learn about applying accounting issues in the real world. Now in its Fourth Edition, Kimmel, Weygandt, and Kieso's Financial Accounting: Tools for Business Decision Making has been tested and approved in the classroom. Whether you measure classroom success by improved grades, students who are better prepared for the Intermediate course and their future careers, or by student evaluations at the end of the semester, Financial Accounting delivers real results. "If you are teaching a debit/credit centered financial accounting principles class there is not a better written or organized text. Believe me I have looked. The supporting materials for instructors [are] also terrific." --Nancy Snow, University of Toledo "The textbook is well written with good examples and homework problems. This book is easy to understand, but is rigorous in its coverage of accounting issues." --Paul Brazina, La Salle University, Philadelphia "Best presentation of material in the industry. In addition, Financial, Managerial and Intermediate all flow together for greater coverage and comprehension." --Vince Enslein, Clinton Community College
