The processes in the RecruiterGuy's Guide to Finding a Job may be used by anyone from a C-level executive to a college recruit. When you look at the job-search process as a series of smaller important processes, you understand why so many books have been written on different aspects of the search. Treat your job search as work. The search is worth it if you find a job that makes you happy. The book is organized by process so you can pick it up at any time and review chapters that affect your situation. Do not read this book from front to back like a novel. Use it as a reference to help you work through each process.

Kaanapali Beach and the West Maui Mountains on the Hawaiian island of Maui, as they were the first time Judith and Rich saw them in 1981. As the couple walked the length of the three-mile beach on that first of many visits, Judith's beautiful brown eyes sparkled and a soft glow came over her face. "Richie," she said, "that is what Heaven must look like." God looked around His garden and found an empty place. He then looked down upon the Earth and saw your tired face. He put His arms around you and lifted you to rest. God's garden must be beautiful. He always takes the best.

The principles of leadership that allow us to rise from the homogeneous pool to the summit of individuality are those that seize upon our own skillsets and proficiencies, not in the pursuit of a position of control but rather of guidance. One becomes a leader by guiding others to their own potentials and illuminating the pathways by which a group can achieve their common goal. By articulating these principles clearly and applicably, this book allows readers to restructure their thinking. Leadership is rediscovered as a fluid and coniferous state of mind rather than a disjointed and often specious state of forced action. Readers develop their own personal framework of leadership using a set of perennial standards, outlooks, and ethics from which effective leadership behavior naturally grows.

Today's hypercompetitive economy has created tense, overextended workplaces, forcing managers to choose between results and relationships. Executives set aggressive goals, so managers drive their teams to deliver, resulting in burnout. Or, employees seek connection and support, so managers focus on relationships . . . and fail to make the numbers. The fallout is stress, frustration, and disengagement--for both team members and managers. But in order to succeed, managers need to achieve both. They must get their workers to achieve while creating an environment that makes them truly want to. *Winning Well* offers managers a quick, practical action plan--complete with examples, stories, and online assessments. Managers will learn how to:

- Stamp out the corrosive win-at-all-costs mentality
- Focus on the game, not just the score
- Reinforce behaviors that produce results
- Sustain energy and momentum
- Be the leader people want to work for
- And more

To prevent burnout and disengagement, while still achieving the necessary success for the company, managers must learn how to get their employees productive while creating an environment that makes them want to produce even more. *Winning Well* offers a quick, practical action plan for making the workplace productive, rewarding, and even fun.
