A Sunday Times Book of the Year As featured on the BBC Radio 2 Book Club Dr James Barry: Inspector General of Hospitals, army surgeon, duellist, reformer, ladykiller, eccentric. He performed the first successful Caesarean in the British Empire, outraged the military establishment and gave Florence Nightingale a dressing down at Scutari. At home he was surrounded by a menagerie of animals, including a cat, a goat, a parrot and a terrier. Long ago in Cork, Ireland, he had also been a mother. This is the amazing tale of Margaret Anne Bulkley, the young woman who broke the rules of Georgian society to become one of the most respected surgeons of the century. In an extraordinary life, she crossed paths with the British Empire's great and good, royalty and rebels, soldiers and slaves. A medical pioneer, she rose to a position that no woman before her had been allowed to occupy, but for all her successes, her long, audacious deception also left her isolated, even costing her the chance to be with the man she loved.

IT'S OFFICIAL: excessive "internetting," smartphoning, and social media make us miserable. But it doesn't have to be that way. Over the last decade, recognized journalist Blake Snow rigorously researched, tested, and developed several connectivity strategies for finding offline balance in an online world, which resulted in this, his first book. In *Log Off: How to Stay Connected after Disconnecting*, Snow passionately, succinctly, and sometimes humorously explains how to hit refresh for good, do more with less online, live large on low-caloric technology, increase facetime with actual people, outperform workaholics in half the time, and tunefully blend both analog and digital lives with no regrets. If the "offline balance movement" is real, this is its playbook. This is the second, greatly expanded edition of one of the world's most successful books on negotiation. 'Getting to Yes' offers powerful principles to guide readers to success in the art of negotiation.

**INSTANT NEW YORK TIMES BESTSELLER** “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates “Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s

population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long

mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

With English becoming the world's foremost lingua franca, the pressure to improve English language education (ELE) has been steadily increasing. Consequently, the nature of ELE has changed drastically in the last decade. This has not only brought about a number of changes in the way English is taught and learnt, but it has also led to various innovative practices around the world. As a result, this edited book aims to shed light on the new theoretical and methodological developments in the field of ELE as well as the major issues and difficulties faced by practitioners in different parts of the globe. One very important variable that the book

takes into account is the role that English already plays in a particular society since this may affect the views that teachers and students hold of the language. This in turn can significantly influence the way English is taught and learnt in given political, economic and socio-cultural settings. The purpose of this book is therefore to provide a comprehensive overview of the pedagogical methods, policies and problems that underlie English language education in ten different regions across the world, including: the USA, Canada, the UK, Australia, New Zealand, India, Singapore, Japan, China and Hong Kong. In doing so, the different chapters in the book emphasize the importance of responding to linguistic and other forms of diversity in order to develop English language education in a globalized world. This book will be useful for teachers and students of English language, for English language curriculum and materials developers, and for those involved in educational policy-making and language acquisition research. Written by experts in the field, the range of content covered in the book's chapters will also help policy-makers, researchers and practitioners develop effective English language education practices and policies, and propose solutions to emerging issues in English language teaching and learning in different environments around the world. The newly-developed arguments and concerns pertaining to English language education will serve as future

reference for professionals interested in this area of expertise.

The Beautiful and Damned, first published by Scribner's in 1922, is F. Scott Fitzgerald's second novel. It explores and portrays New York café society and the American Eastern elite during the Jazz Age before and after the Great War and in the early 1920s.[1][2] As in his other novels, Fitzgerald's characters in this novel are complex, especially with respect to marriage and intimacy. The work generally is considered to be based on Fitzgerald's relationship and marriage with his wife Zelda Fitzgerald

Listening in Second language (L2) is one of fundamental aspects in learning. Listening in EFL is unavoidable in L2 learning since learners often do listening frequently and essentially to facilitate the development of their English proficiency. Cahyono & Widiati (2011) state that there is a concern regarding listening in the field of language teaching as receptive skill to acknowledge that listening process is complex. The formidable challenges of L2 listening comprehension which poses the learners to develop other L2 language skills has long been highlighted and observed (Ferris & Tagg, 1996; Goh, 2000; Graham, 2006; Vandergrift, 2007; Goh, 2008; Graham & Macaro, 2008; Gatehouse & Akerovd, 2008; Woodall, 2010; Field, 2008a, 2008b, 2010; Aldera, 2013; Perez et al., 2013; Siegel, 2013; Chang & Millett, 2014; Sommers, 2015).

You will never think of your mother the same way after you read this book. Already an international sensation and a bestseller that has sold over 1.5 million copies in the author's native Korea, Please Look After Mom is a stunning, deeply moving story of a family's search for their missing mother — and their discovery of the desires, heartaches and secrets they never realized she harbored within. When sixty-nine-year-old So-nyo is separated from her husband among the crowds of the Seoul subway station, and vanishes, their children are consumed with loud recriminations, and are awash in sorrow and guilt. As they argue over the "Missing" flyers they are posting throughout the city — how large of a reward to offer, the best way to phrase the text — they realize that none of

them have a recent photograph of Mom. Soon a larger question emerges: do they really know the woman they called Mom? Told by the alternating voices of Mom's daughter, son, her husband and, in the shattering conclusion, by Mom herself, the novel pieces together, Rashomon-style, a life that appears ordinary but is anything but. This is a mystery of one mother that reveals itself to be the mystery of all our mothers: about her triumphs and disappointments and about who she is on her own terms, separate from who she is to her family. If you have ever been a daughter, a son, a husband or a mother, *Please Look After Mom* is a revelation — one that will bring tears to your eyes.
