The biblical prophets. Through his own study of the prophets, Farrar is convinced that America is on the brink of judgment. He says, "The problem with America is not the unbelieving world. One of the most valuable skills in our economy is becoming increasingly rare. If you master this skill, you'll achieve extraordinary results. *Deep Work* is an indispensable guide to anyone seeking focused success in a distracted world. 'Cal Newport is exceptional in the realm of self-help authors' *New York Times* 'Deep work' is the ability to focus without distraction on a cognitively demanding task. Coined by author and professor Cal Newport on his popular blog *Study*

Hacks, deep work will make you better at what you do, let you achieve more in less time and provide the sense of true fulfilment that comes from the mastery of a skill. In short, deep work is like a superpower in our increasingly competitive economy. And yet most people, whether knowledge workers in noisy open-plan offices or creatives struggling to sharpen their vision, have lost the ability to go deep - spending their days instead in a frantic blur of email and social media, not even realising there's a better way. A mix of cultural criticism and actionable advice, DEEP WORK takes the reader on a journey through memorable stories -- from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air -- and surprising suggestions, such as the claim that most serious professionals should quit social media and that you should practice being bored. Put simply: developing and cultivating a deep work practice is one of the best decisions you can make in an increasingly distracted world and this book will point the way.

An “original and haunting” novel about two wars and two generations of men (Minneapolis Star Tribune). Pensive in the wake of 9/11, a young man launches a mission to reunite his beloved grandfather, an American bombardier, with Luddie, the woman who saved him during WWII. Armed only with the address on the back of an old photograph and his grandfather’s memories, the young man begins writing letters to Luddie. Undaunted by her lack of response, the narrator travels to Poland with his girlfriend and grandfather. As they come closer to finding the site where the bombardier was shot down, the letters to Luddie become more personal—and the saga of a family with a long and storied history emerges. Beautifully orchestrated and eloquently original, this is a tale of soldiers and saviors, of burning and bombing, of fathers and sons and brothers and lovers—and of what we find when we dare to revisit the past. “A rewarding experience.” —Chicago Sun-Times “Nichols handles beautifully the hidden meanings in old family tales heard a hundred times . . . The novel often reads like a piece of music that is wonderfully original.” —Publishers Weekly “A dramatically off-

kilter debut novel about wars and the men who fight them . . . We see the Bombardier, an elderly Rotarian and former mayor of a small Midwestern town, rediscovering his youthful memories. His grandson's bewilderment over what to do about the 9/11 attacks highlights the differences between then and now. There's a lot of meaty material here." —Kirkus Reviews
