This text explains the principles of IT-related project management, including project planning, monitoring and control, change management, risk management, and communication between project stakeholders. Salford's history is long and vibrant, although it wasn't given city status until 1926. It was the heartland of the Industrial Revolution and became famous for its silk and cloths. The building of the Manchester Ship Canal and the opening of the Salford Docks brought employment to the area for almost a century. During the 1960s and 1970s Salford underwent dramatic changes with the emergence of high-rise tower blocks and the gradual decline of the industries centred around the docklands. This period of decline left dramatic marks on Salford's industrial and cultural life. Salford's sporting history is as vibrant as its industrial with strong rugby league teams like the Salford City Reds. Although Salford does not have a professional football team of its own it does have a non-league club, Salford City F.C. Today the city has undergone another revolution with the exciting development of the Lowry Centre and surrounding docklands. Salford University is one of the most vibrant universities in the country. Once derelict mills are being converted into artists studios and modern apartment complexes. Salford Past is a pictorial history chronicling the dramatic changes the city has undergone throughout the decades. This is a unique collection of evocative images, many never previously published, from the archives of the Manchester Evening News. Whether you have lived in the Salford area, or are visiting, this book will present interesting views on this vibrant city.
