Toward the end of the Algerian war, the FLN, an Algerian nationalist party, organised a demonstration in Paris to oppose a curfew imposed upon Algerians in France. The protest was brutally suppressed by the Paris police. This incident provides an intimate look at the history of violence between France and Algeria.

'A beacon of hope in a dark world' Cathy Rentzenbrink, *The Pool* One night in November 2015, when Antoine Leiris was at home looking after his baby son, his wife H el ene was killed, along with 88 other people, at the Bataclan Theatre in Paris. Three days later, Antoine wrote an open letter to his wife's killers on Facebook. He refused to be cowed or to let his baby son's life be defined by their acts. 'For as long as he lives, this little boy will insult you with his happiness and freedom,' he wrote. Instantly, that short post caught fire and was shared thousands of times around the world. An extraordinary and heartbreaking memoir, *You Will Not Have My Hate* is a universal message of hope and resilience in our troubled times.

This volume is a collection of papers that highlights some recurring themes that have surfaced in the generative tradition in linguistics over the past 40 years. The volume is more than a historical take on a theoretical tradition; rather, it is also a "compass" pointing to exciting new empirical directions inspired by generative theory. In fact, the papers show a progression from core theoretical concerns to data-driven experimental investigation and can be divided roughly into two categories: those that follow a syntactic and theoretical course, and those that follow an experimental or applied path.

Many of the papers revisit long-standing or recurring themes in the generative tradition, some of which seek experimental validation or refutation. The merger of theoretical and experimental concerns makes this volume stand out, but it is also forward looking in that it addresses the recent concerns of the creation and consumption of data across the discipline.

On the anniversary of the tragic events in Paris one year ago, a new book by Paul Graham presents a series of photographs he made in response to the suffocating tension on the city's streets whilst he took refuge in an apartment in the city with his partner and young child. Looking at the images you would never know of the traumatic events unfolding outside, but suffusing the photographs in an inscrutable longing for the safe, the everyday, the known.

The 15:17 to Paris is an amazing true story of friendship and bravery, of near terrorist attack averted by three young men who found the heroic unity and strength inside themselves at the moment when they, and 500 other innocent travellers, needed it most. An ISIS terrorist planned to kill more than 500 people. He would have succeeded except for three American friends who refused to give in to fear. Khazzani wasn't expecting Anthony Sadler, Alek Skarlatos, and Spencer Stone. Stone was a martial arts enthusiast and airman first class in the US Air Force, Skarlatos was a member of the Oregon National Guard, and all three were fearless. But their decision, to charge the gunman, then overpower him even as he turned first his gun, then his knife, on Stone, depended on a lifetime of loyalty, support, and faith. Their friendship was forged as they came of age together in California: going to church, playing paintball, teaching each other to swear, and sticking together when they got in trouble at school. Years later, that friendship would give all of them the courage to stand in the path of one of the world's deadliest terrorist organizations. Inventing Americans in the Age of Discovery traces the linguistic, rhetorical, and literary innovations that emerged out of the first encounters between Europeans and indigenous peoples of the Americas. Through analysis of six texts, Michael Householder demonstrates the role of language in forming the identities or characters that permitted Europeans (English speakers, primarily) to adapt to the unusual circumstances of encounter. Arranged chronologically, the texts examined include John Mandeville's Travels, Richard Eden's English-language translations of the accounts of Spanish and Portuguese discovery and conquest, George Best's account of Martin Frobisher's voyages to northern Canada, Ralph Lane's account of the abandonment of Roanoke, John Smith's writings about Virginia, and John Underhill's account of the Pequot War. Through his analysis, Householder reveals that English colonists did not share a universal, homogenous view of indigenous Americans as savages, but that the writers, confronted by unfamiliar peoples and situations, resorted to a mixed array of cultural beliefs, myths, and theories to put together workable explanations of their experiences, which then became the basis for how Europeans in the colonies began transforming themselves into Americans.

Paris is the City of Light, love, and savoir vivre. And this world-class capital is surely one of the planet's most photographed destinations, whether by tourists snapping a quick souvenir shot or professionals with high-end cameras. The brief preview we provide here shows how special this city really is. Paris has never been showcased as impressively, meaningfully, or dramatically as it is by the French photographer Serge Ramelli. His vision of the city--like all of his images--is unmistakably inspired by cinema. In addition to his second passion, filmmaking (which he does when he's not taking pictures), he is also fascinated by the films of Jean-Pierre Jeunet and Ridley Scott. Ramelli's interpretation of the bustling metropolis of Paris is at once impressive and fabulous. Pulsing with life both day and night, the city appears nearly devoid of people--a heavily symbolic place with many facets to explore, shining with an inimitable light.

On 21 August 2015, Ayoub al-Khazzani boarded a train in Brussels bound for Paris. We now know that he was an ISIS terrorist. Khazzani's mission was clear: he had an AK-47, a pistol, a box cutter, and enough ammunition to obliterate the 554 passengers on the crowded train. But as he began to execute his plan, he encountered an unstoppable line of defence: three American friends. *The 15:17 to Paris* is a gripping account of the foiled attack by the three men who lived it—Anthony Sadler, Alek Skarlatos and Spencer Stone. It is also the story of what compelled three lifelong friends to run towards danger instead of from it—towards humanity, not away from terror.

Bored by his rural life in the savannah, a lion seeks excitement and opportunity in the City of Light, where he is surprised that even his roaring does not cause a stir while visiting Montmartre, the Eiffel Tower and the busy underground Métro. By the award-winning creator of *Bugs in a Blanket*.

Weaving together the historical and the imagined, China Miéville's *The Last Days of New Paris* is a surreal and extraordinary work, from the author of *The City & The City*. 1941. In the chaos of wartime Marseille, American engineer and occult disciple Jack Parsons stumbles onto a clandestine anti-Nazi group, including Surrealist theorist André Breton. In the strange games of dissident diplomats, exiled revolutionaries, and avant-garde artists, Parsons finds and channels hope. But what he unwittingly unleashes is the power of dreams and nightmares, changing the war and the world for ever. 1950. A lone Surrealist fighter, Thibaut, walks a new, hallucinogenic Paris, where Nazis and the Resistance are trapped in unending conflict, and the streets are stalked by living images and texts - and by the forces of Hell. To escape the city, Thibaut must join forces with Sam, an American photographer intent on recording the ruins, and make common cause with a powerful, enigmatic figure of chance and rebellion: the exquisite corpse. But Sam is being hunted. And new secrets will emerge that will test all their loyalties - to each other, to Paris old and new, and to reality itself.

You could be forgiven for thinking that the smile has no history; it has always been the same. However, just as different cultures in our own day have different rules about smiling, so did different societies in the past. In fact, amazing as it might seem, it was only in late eighteenth century France that western civilization discovered the art of the smile. In the 'Old Regime of Teeth' which prevailed in western Europe until then, smiling was quite literally frowned upon. Individuals were fatalistic about tooth loss, and their open mouths would often have been visually repulsive. Rules of conduct dating back to Antiquity disapproved of the opening of the mouth to express feelings in most social situations. Open and unrestrained smiling was associated with the impolite lower orders. In late eighteenth-century Paris, however, these age-old conventions changed, reflecting broader transformations in the way people expressed their feelings. This allowed the emergence of the modern smile par excellence: the open-mouthed smile which, while highlighting physical beauty and expressing individual identity, revealed white teeth. It was a transformation linked to changing patterns of politeness, new ideals of sensibility, shifts in styles of self-presentation - and, not least, the emergence of scientific dentistry. These changes seemed to usher in a revolution, a revolution in smiling. Yet if the French revolutionaries initially went about their business with a smile on their faces, the Reign of Terror soon wiped it off. Only in the twentieth century would the white-tooth smile re-emerge as an accepted model of self-presentation. In this entertaining, absorbing, and highly original work of cultural history, Colin Jones ranges from the history of art, literature, and culture to the history of science, medicine, and dentistry, to tell a unique and untold story about a facial expression at the heart of western civilization.

The Hunchback of Notre Dame (French: Notre-Dame de Paris) is an 1831 French novel written by Victor Hugo. It is set in 1482 in Paris, in and around the cathedral of Notre Dame de Paris. The book tells the story of a poor barefoot Gypsy girl (La Esmeralda) and a misshapen bell-ringer (Quasimodo) who was raised by the Archdeacon (Claude Frollo). The book was written as a statement to preserve the Notre Dame cathedral and not to 'modernize' it, as Hugo was thoroughly against this. The story begins during the Renaissance in 1482, the day of the Festival of Fools in Paris. Quasimodo, the deformed bell ringer, is introduced by his crowning as Pope of Fools. Esméralda, a beautiful 16-year-old gypsy with a kind and generous heart, captures the hearts of many men but especially Quasimodo's adopted father, Claude Frollo. Frollo is torn between his lust and the rules of the church. He orders Quasimodo to get her. Quasimodo is caught and whipped and ordered to be tied down in the heat. Esméralda seeing his thirst, offers him water. It saves her, for she captures the heart of the hunchback.

'Ulysses' is a novel by Irish writer James Joyce. It was first serialised in parts in the American journal 'The Little Review' from March 1918 to December 1920, and then published in its entirety by Sylvia Beach in February 1922, in Paris.

'Ulysses' has survived bowdlerization, legal action and bitter controversy. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. An undisputed modernist classic, its ceaseless verbal inventiveness and astonishingly wide-ranging allusions confirm its standing as an imperishable monument to the human condition. It takes readers into the inner realms of human consciousness using the interior monologue style that came to be called stream of consciousness. In addition to this psychological characteristic, it gives a realistic portrait of the life of ordinary people living in Dublin, Ireland, on June 16, 1904. The novel was the subject of a famous obscenity trial in 1933, but was found by a U.S. district court in New York to be a work of art. The furor over the novel made Joyce a celebrity. In the long run, the work placed him at the forefront of the modern period of the early 1900s when literary works, primarily in the first two decades, explored interior lives and subjective reality in a new idiom, attempting to probe the human psyche in order to understand the human condition. This richly-allusive novel, revolutionary in its modernistic experimentalism, was hailed as a work of genius by W.B. Yeats, T.S. Eliot and Ernest Hemingway. Scandalously frank, wittily erudite, mercurially eloquent, resourcefully comic and generously humane,

Incandescent and celebratory paintings of cherry blossoms from Damien Hirst, in a glorious oversize volume With 107 new works, Cherry Blossoms marks a new chapter in Damien Hirst's career-long exploration of the physical relationship between artist and canvas that began with his Spot Paintings in 1986. Hirst describes his cherry blossoms as garish and messy and fragile"; the series signals a shift in Hirst's career away from minimalism and "the imagined mechanical painter" toward a painting that delights in the potential haphazardness of the medium, as well as the artist's own fallibility as a creator. Rich in color and striking in number, Hirst's Cherry Blossoms are both an appropriation and a tribute to the pictorial art of the 19th and 20th centuries. Damien Hirst (born 1965) rose to prominence in the 1990s as one of the Young British Artists, garnering attention for his controversial site-specific pieces. A 1989 graduate of Goldsmiths College, Hirst was awarded the Turner Prize in 1995. Now one of the contemporary art world's most famous figures, Hirst continues to surprise audiences with a staggering diversity of work, ranging from sculpture and painting to installation and performance art. In 2012, a retrospective of his nearly 30-year career was staged at Tate Modern. Hirst is represented by Gagosian.

(Ernie Pyle, US war correspondent) The liberation of Paris was a momentous point in twentieth-century history, yet it is now largely forgotten outside France. *Eleven Days in August* is a pulsating hour-by-hour reconstruction of these tumultuous events that shaped the final phase of the war and the future of France, told with the pace of a thriller. While examining the conflicting national and international interests that played out in the bloody street fighting, it tells of how, in eleven dramatic days, people lived, fought and died in the most beautiful city in the world. Based largely on unpublished archive material, including secret conversations, coded messages, diaries and eyewitness accounts, *Eleven Days in August* shows how these August days were experienced in very different ways by ordinary Parisians, Resistance fighters, French collaborators, rank-and-file German soldiers, Allied and French spies, the Allied and German High Commands. Above all, it shows that while the liberation of Paris may be attributed to the audacity of the Resistance, the weakness of the Germans and the strength of the Allies, the key to it all was the Parisians who by turn built street barricades and sunbathed on the banks of the Seine, who fought the Germans and simply tried to survive until the Germans finally surrendered, in a billiard room at the Prefecture of Police. One of the most iconic moments in the history of the twentieth century had come to a close, and the face of Paris would never be the same again.

Under the protection of foreign forces, a special place has flourished in Afghanistan. The Marefat School is an award-winning institution in the western slums of Kabul, built by one of the country's most vulnerable minorities, the Hazara. Marefat educates both girls and boys; it teaches students to embrace the arts, criticize their leaders, interrogate their religion, and be active citizens in a rapidly changing country. But they are dependent on foreign forces for security. When the United States begins to withdraw from Afghanistan, they are left behind, unprotected. Acclaimed journalist Jeffrey E. Stern explores the stakes of war through the eyes of those touched by Marefat: the school's daring founder and leader, Aziz Royesh; a mother of five who finds freedom in literacy; a clever mechanic; a self-taught astronomer; the school's security director; and several intrepid students who carry Marefat's mission to the streets. We see how Marefat has embraced the United States and blossomed under its presence---and how much it stands to lose as that protection disappears. *The Last Thousand* tells the story of what we leave behind when our foreign wars end. It shows us up close the promise, as well as the peril, of our military adventures abroad. Stern presents a nuanced and fascinating portrait of the complex history of Afghanistan, its American occupation, and the ways in which once community rallies together in compelling, heartbreaking, and inspiring detail.

Paris and the Musical explores how the famous city has been portrayed on stage and screen, investigates why the city has been of such importance to the genre and tracks how it has developed as a trope over the 20th and 21st centuries. From global hits *An American in Paris*, *Gigi*, *Les Misérables*, *Moulin Rouge!* and *The Phantom of the Opera* to the less widely-known *Bless the Bride*, *Can-Can*, *Irma la Douce* and *Marguerite*, the French capital is a central character in an astounding number of Broadway, Hollywood and West End musicals. This collection of 18 essays combines cultural studies, sociology, musicology, art and adaptation theory, and gender studies to examine the envisioning and dramatisation of Paris, and its depiction as a place of romance, hedonism and libertinism or as 'the capital of the arts'. The interdisciplinary nature of this collection renders it as a fascinating resource for a wide range of courses; it will be especially valuable for students and scholars of Musical Theatre and those interested in Theatre and Film History more generally.
