

The Active Reader By Eric Henderson

The eye of the camera lens is a window to our world. Through it, we see beauty, tragedy, and the passing of our lives. Sometimes, if we are especially fortunate, we are privileged to view fleeting moments in history. "Eye Remember" is a personal glimpse at the people, places, and events that shaped a generation of post World War II "baby-boomers." This volume contains photos, all from the author's personal collection, and profiles of celebrities, activists, and political leaders from those times. They colored the lives of us all.

"Jody is a masterful storyteller, with beautifully developed characters, incredible landscapes and every now and then she throws in a plot twist that will leave you reeling." —Goodreads review Did you hear the rumor about the girl from the wrong side of the tracks who intentionally got pregnant with her wealthy boyfriend's baby? The one thing that's made perfect sense in Ginny Adair's eighteen years was falling for level-headed Eric Cavanaugh. Growing up wasn't exactly the same kind of party for her that it was for her boyfriend. While Eric and the other quintuplets ran roughshod over their family's Texas ranch, Ginny was hiding from a cruel stepfather with a compulsive gambling habit. Uncertain if leaving for college might mean losing the one person she's come to count on, all it takes is a single misstep for Ginny to unravel both of their lives. Now the entire small town is convinced Ginny always intended on cashing in on the notoriety of snagging herself a Kingsbrier Quintuplet. Eric Cavanaugh's infamously misbehaved siblings count on his dependability. Stable grades. Stable relationship with a girlfriend the rest of the quints agree is just about the nicest, smartest, most trustworthy person they know. But when Ginny's actions prove deceitful, it leaves Eric's solid plan to take over the family business on shaky ground and leaves him questioning if his brothers and sisters have misplaced their confidence in him. To make matters worse, Ginny's stepfather is proving he'll do anything to get his hands on Eric's trust fund. Eric knows Ginny isn't like that and will do anything to earn his forgiveness. Some mistakes change the course of your future... But a baby is a mistake you can't take back.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

Brooklyn Borough president and Democratic nominee for New York City mayor Eric Adams is on a mission to tackle one of the most stubborn health problems in the country: chronic disease in the African American community. African Americans are heavier and sicker than any other group in the U.S., with nearly half of all Black adults suffering from some form of cardiovascular disease. After Adams woke up with severe vision loss one day in 2016, he learned that he was one of the nearly 5 million Black people living with diabetes-and, according to his doctor, he would have it for the rest of his life. A police officer for more than two decades, Adams was a connoisseur of the fast-food dollar menu. Like so many Americans with stressful jobs, the last thing he wanted to think about was eating healthfully. Fast food was easy, cheap, and comfortable. His diet followed him from the squad car to the state senate, and then to Brooklyn Borough Hall, where it finally caught up with him. But Adams was not ready to become a statistic. There was a better option besides medication and shots of insulin: food. Within three months of adopting a plant-based diet, he lost 35 pounds, lowered his cholesterol by 30 points, restored his vision, and reversed his diabetes. Now he is on a mission to revolutionize the health of not just the borough of Brooklyn, but of African Americans across the country. Armed with the hard science and real-life stories of those who have transformed their bodies by changing their diet, Adams shares the key steps for a healthy, active life. With this book, he shows readers how to avoid processed foods, cut down on salt, get more fiber, and substitute beef, chicken, pork, and dairy with delicious plant-based alternatives. In the process he explores the origins of soul food-a cuisine deeply important to the Black community, but also one rooted in the horrors of slavery-and how it can be reimagined with healthy alternatives. Features more than 50 recipes from celebrities and health experts, including Paul McCartney, Queen Afua, Jenné Claiborne, Bryant Jennings, Charity Morgan, Moby, and more! The journey to good health begins in the kitchen-not the hospital bed!

Everything You Ever Wanted To Know About The Music Your Parents Never Wanted You To Hear Believe it or not, music censorship in America did not begin with Tipper Gore's horrified reaction to her daughter's Prince album. The vilification of popular music by government and individuals has been going on for decades. Now, for the first time, Parental Advisory offers a thorough and complete chronicle of the music that has been challenged or suppressed -- by the people or the government -- in the United States. From Dean Martin's "Wham, Bam, Thank you Ma'am" to Marilyn Manson's Antichrist Superstar; from freedom fighters such as Frank Zappa and in-your-face rappers such as N.W.A. to crusaders such as Tipper Gore, this intelligent and entertaining book shows how censorship has crossed sexual, class, and ethnic lines, and how many see it as a de facto form of racism. With nearly one hundred fascinating photographs of musicians, record burning, and controversial cover art; illuminating sidebars; and a decade-by-decade timeline of important moments in censorship history, Parental Advisory is by turns frightening and hilarious -- but always revealing. The Active Reader is a reader designed to provide students with a practical, integrated approach to reading and writing at a post-secondary level. The book is divided into three sections, the first on academic reading, which introduces students to the conventions of academic discourse and to critical thinking; the second on academic writing, which begins with an overview of the college/university essay and then discusses the report, critical analyses, summaries, and research essays; and a final section of 39 readings organized into five thematic sections each of which includes diverse and cross-disciplinary readings. A truly indispensable resource!

Somewhere, sometime, someone has to be trusted—but one wrong move could suddenly become her last breath.

A part of Harper Perennial's special "Resistance Library" highlighting classic works that illuminate the "Age of Trump": A boldly packaged reissue of the classic examination of dangerous nationalist political movements. "Its theme is political fanaticism, with which it deals severely and brilliantly." —*New Yorker* A stevedore on the San Francisco docks in the 1940s, Eric Hoffer wrote philosophical treatises in his spare time while living in the railroad yards. *The True Believer*—the first and most famous of his books—was made into a bestseller when President Eisenhower cited it during one of the earliest television press conferences. Called a "brilliant and original inquiry" and "a genuine contribution to our social thought" by Arthur Schlesinger, Jr., this landmark in the field of social psychology is completely relevant and essential for understanding the world today as it delivers a visionary, highly provocative look into the mind of the fanatic and a penetrating study of how an individual becomes one.

In the future, the past will never be the same... By the end of the 25th Century few had as storied a career as Doctor J. Burke. An historian who used quantum superluminal teleportation to mingle among her forebears through twenty different decades making discoveries and recovering lost artifacts, she was the last of the Historical Archive Collection's 'big three' antiquinants. The physical effects of the profession had grounded jovial Ike Chernovich in old San Francisco, companion Braham Lilienthal had vanished without a trace three years before, and the indifference of the Minders from the future, who were best positioned to help, left Burke with a weary cynicism. Only the promise of a special mission, the brainchild of rookie archivist Nathan Rialto, brought her back again. It was Burke's specialty, the recovery of a glamorous old airliner from 1951 using a revolutionary new teleport, and in California as well. She would gather her trusty team of specialists, teach the rookie the ropes and perhaps contemplate a different kind of future afterward with Ike. From the moment it began it felt as if the whole mission had been created just for her...and that was only the beginning of her problems!

This monograph examines the nature of active learning at the higher education level, the empirical research on its use, the common obstacles and barriers that give rise to faculty resistance, and how faculty and staff can implement active learning techniques. A preliminary section defines active learning and looks at the current climate surrounding the concept. A second section, entitled "The Modified Lecture" offers ways that teachers can incorporate active learning into their most frequently used format: the lecture. The following section on classroom discussion explains the conditions and techniques needed for the most useful type of exchange. Other ways to promote active learning are also described including: visual learning, writing in class, problem solving, computer-based instruction, cooperative learning, debates, drama, role playing, simulations, games, and peer teaching. A section on obstacles to implementing active learning techniques leads naturally to the final section, "Conclusions and Recommendations," which outlines the roles that each group within the university can play in order to encourage the implementation of active learning strategies. The text includes over 200 references and an index. (JB)

Eric Coates (1886-1957) is perhaps the most familiar name associated with British light music. Sir Charles Groves said that 'his music crackled with enthusiasm and vitality. He could write tunes and clothe them in the most attractive musical colours'. Coates won a scholarship to the Royal Academy of Music, and from 1912 to 1919 he was principal viola of the Queen's Hall Orchestra under Sir Henry Wood. He also played under such conductors as Elgar, Delius, Richard Strauss, Debussy, and Beecham. It was, however, as a composer of orchestral music that he found his greatest success. Beginning with the Miniature Suite, written for the 1911 Promenade Concerts, he forged an enviable reputation as a composer. By the 1920s and 1930s, he was one of the most popular and highest-paid British composers, with a string of popular works flowing from his pen. Coates' music has become indelibly entwined with such popular radio programmes as the BBC's *In Town Tonight*, which was introduced by the 'Knightsbridge' March and *Desert Island Discs* whose signature tune for the past forty years has been *By the Sleepy Lagoon*. Perhaps his most memorable work was his march for the *Dam Busters* film. Michael Payne traces the changing fortunes of the career of the man who composed some of Britain's best-known music. In many ways, Coates' story is the story of British light music, and Payne's study offers a fascinating insight into the heyday and decline of the British light music tradition.
