'One of the best business books I've read in years.' BILL GATES THE #1 NEW YORK TIMES BESTSELLER A SUNDAY TIMES BOOK OF THE YEAR 2019 _____ The CEO of Disney, one of Time's most influential people of 2019, shares the ideas and values he embraced to reinvent one of the most beloved companies in the world and inspire the people who bring the magic to life. Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Morale had deteriorated, competition was intense, and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger-think global-and turn Disney into a stronger brand in international markets. Fourteen years later, Disney is the largest, most respected media company in the world, counting Pixar, Marvel, Lucasfilm and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In The Ride of a Lifetime, Robert Iger shares the lessons he's learned while running Disney and leading its 200,000 employees, and he explores the principles that are necessary for true leadership, including: Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming. Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity. Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale. Fairness. Treat people decently, with empathy, and be accessible to them. 'Bob Iger has not only lived up to ninety-six years of groundbreaking history but has moved the Disney brand far beyond anyone's expectations, and he has done it with grace and audacity. This books shows you how that happened.' STEVEN SPIELBERG

The apocalypse strikes without warning. A mysterious geomagnetic event that sweeps the globe, leaving a powerful amnesia in its wake. In the blink of an eye, the human race is robbed of the most basic skills learned in childhood: reading, writing and the ability to speak. Civilization crumbles, plunging the world into an age of unparalleled barbarism. From the ashes emerge a handful of survivors, largely unaffected by the change. Alone, they must brave a dangerous and chaotic world in order to reach the only known refuge: a camp set in the foothills of Salt Lake City, Utah. There lies food, shelter and maybe even answers. But standing between them and safety is more than bands of armed thugs and bloodthirsty cannibals. A new evil is gathering. One that's eager to destroy the last vestiges of life on earth and finish what it started, once and for all. The survivors: A man who awakens in the bowels of a secret laboratory with no memory of how he got there and only an enigmatic tattoo to guide him. A Coast Guard sailor searching for a killer who may not be what he seems. A mother of two and recent widow, struggling to protect her family from a world gone mad. A former CEO and full-time scumbag determined to do whatever it takes to thrive in this new apocalyptic wasteland.

The Sunday Times bestseller. Winner of the Kitschies Golden Tentacle award. A stunning science fiction debut, *The Space Between Worlds* is both a cross-dimensional adventure and a powerful examination of identity, privilege, and belonging. 'My mother used to say I was born reaching, which is true. She also used to say it would get me killed, which it hasn't. Not yet, anyway.' Born in the dirt of the wasteland, Cara has fought her entire life just to survive. Now she has done the impossible, and landed herself a comfortable life on the lower levels of the wealthy and walled-off Wiley City. So long as she can keep her head down and avoid trouble, she's on a sure path to citizenship and security - on this world, at least. Of the 380 realities that have been unlocked, Cara is dead in all but 8. Cara's parallel selves are exceptionally good at dying - from disease, turf wars, or vendettas they couldn't outrun - which makes Cara wary, and valuable. Because while multiverse travel is possible, no one can visit a world in which their counterpart is still alive. And no one has fewer counterparts than Cara. But then one of her eight doppelgängers dies under mysterious circumstances, and Cara is plunged into a new world with an old secret. What she discovers will connect her past and future in ways she never could have imagined - and reveal her own role in a plot that endangers not just her earth, but the entire multiverse.

In this New York Times bestselling investigation, Ted Koppel reveals that a major cyberattack on America's power grid is not only possible but likely, that it would be devastating, and that the United States is shockingly unprepared. Imagine a blackout lasting not days, but weeks or months. Tens of millions of people over several states are affected. For those without access to a generator, there is no running water, no sewage, no refrigeration or light. Food and medical supplies are dwindling. Devices we rely on have gone dark. Banks no longer function, looting is widespread, and law and order are being tested as never before. It isn't just a scenario. A well-designed attack on just one of the nation's three electric power grids could cripple much of our infrastructure—and in the age of cyberwarfare, a laptop has become the only necessary weapon. Several nations hostile to the United States could launch such an assault at any time. In fact, as a former chief scientist of the NSA reveals, China and Russia have already penetrated the grid. And a cybersecurity advisor to President Obama believes that independent actors—from "hacktivists" to terrorists—have the capability as well.

“It’s not a question of if,” says Centcom Commander General Lloyd Austin, “it’s a question of when.” And yet, as Koppel makes clear, the federal government, while well prepared for natural disasters, has no plan for the aftermath of an attack on the power grid. The current Secretary of Homeland Security suggests keeping a battery-powered radio. In the absence of a government plan, some individuals and communities have taken matters into their own hands. Among the nation’s estimated three million “preppers,” we meet one whose doomsday retreat includes a newly excavated three-acre lake, stocked with fish, and a Wyoming homesteader so self-sufficient that he crafted the thousands of adobe bricks in his house by hand. We also see the unrivaled disaster preparedness of the Mormon church, with its enormous storehouses, high-tech dairies, orchards, and proprietary trucking company – the fruits of a long tradition of anticipating the worst. But how, Koppel asks, will ordinary civilians survive? With urgency and authority, one of our most renowned journalists examines a threat unique to our time and evaluates potential ways to prepare for a catastrophe that is all but inevitable.

A crippling attack on America and her infrastructure. Are humans in their final days? When a sudden, unexplained spasm of violence rocks the country from coast to coast, when our military is hijacked and the President can't be found, the survivors will be left to wonder if this is the start of a new world war, or if this is the last chapter of humanity itself.

Undercover DEA agent, Fire Dimas, is drowning in problems: a unrelenting job, a difficult marriage and a teenage daughter with suitors of the worst kind. Then there's the cartel he double-crossed and the "incident" at the high school. To say he's in way over his head is the understatement of the century. Rest assured though, for Fire and his family, it's about to get much, much worse. The assault has already begun... Eliana Gutierrez and her niece, Carolina, are stolen by the Guatemalan cartel and swallowed into the dark world of human trafficking until a brutal crime separates them. Eliana must now use the deadly trafficking lines to trek up through Mexico and into America in search of the only person she ever loved. Along the way, she'll come face-to-face with a handsome, rancorous hitman who will either be her salvation or her bitter end. Under the cover of a post-apocalyptic nightmare, Eliana will risk life and limb for the child, but will it be enough? LAST WAR ARE SAYING... "Epic apocalyptic read with compelling characters! Ryan knows how to write action and suspense. But where he truly shines is the flawed, complex, broken but resolute heroes and heroines he creates. These characters are embroiled in deep, high-stakes problems before the apocalypse even starts. How their journeys entwine with the oncoming, world-ending disaster makes for great fiction." - Kyla Stone - Bestselling Author The Last Sanctuary Omnibus ????? "One of the best of this genre! THIS is writing at its finest. One of the best in this genre. I am officially a fan of this writer." - Rodolfo, Amazon Reviewer ????? "Starts fast and doesn't let up to the last sentence!
