Hailed as one of the most powerful and moving poets of his generation, Galway Kinnell has been commended by critics who often pair his name with such famous predecessors as Walt Whitman, Henry David Thoreau, Robert Frost, W. B. Yeats, Rainer Maria Rilke, T. S. Eliot, and Theodore Roethke. Born on February 1, 1927, Galway Kinnell has been working on the strength and truthfulness of his voice for almost five decades now. This well-written work offers a very important perspective on a major living poet, focusing specifically on what is a key theme in Kinnell's work--death. The author's thematic analysis does not stop short with a direct reading of the poetry, it also seeks to place her subject within several contexts, including that problematic pivotal position between Modernism and Postmodernism, and a specific poetic tradition (including T. S. Eliot, William Carlos Williams, Whitman and Dickinson). What emerges from the readings of Kinnell's various poetry collections is essentially an extended philosophical meditation on death, that both offers itself as a commentary whilst also repeatedly showing, with much clarity, how complex a subject death is for Kinnell. This meditation on death also means a deep consideration of those other large themes that have asserted themselves in American poetry--transcendentalism, nature, and life itself magnified against the darkness of death in the poet's work. This volume will make an important contribution to research on Kinnell and the author's ability to follow her subject into a very complex labyrinth of philosophical and aesthetic discussions, while always being mindful that Kinnell remains central, offers much in the way of a good example of literary analysis and scholarship. This book makes a significant contribution to scholarship on Galway Kinnell, a major contemporary poet whose work will receive more and more attention over the coming years. In addition, this work also marks a contribution to scholarship on poetry, American literature and contemporary literature, as well as to the fascination with death as a theme in much of American literature, from Dickinson and Poe to Plath and Salinger. Death in the Works of Galway Kinnell will be a very valuable resource for students and teachers of contemporary poetry and American literature.

In this groundbreaking new work, David Kessler—an expert on grief and the coauthor with Elisabeth Kübler-Ross of the iconic On Grief and Grieving—journeys beyond the classic five stages to discover a sixth stage: meaning. In 1969, Elisabeth Kübler-Ross first identified the stages of dying in her transformative book On Death and Dying. Decades later, she and David Kessler wrote the classic On Grief and Grieving, introducing the stages of grief with the same transformative pragmatism and compassion. Now, based on hard-earned personal experiences, as well as knowledge and wisdom earned through decades of work with the grieving, Kessler introduces a critical sixth stage. Many people look for “closure” after a loss. Kessler argues that it’s finding meaning beyond the stages of grief most of us are familiar with—denial, anger, bargaining, depression, and acceptance—that can transform grief into a more peaceful and hopeful experience. In this book, Kessler gives readers a roadmap to remembering those who have died with more love than pain; he shows us how to move forward in a way that honors our loved ones. Kessler’s insight is both professional and intensely personal. His journey with grief began when, as a child, he witnessed a mass shooting at the same time his mother was dying. For most of his life, Kessler taught physicians, nurses, counselors, police, and first responders about end of life, trauma, and grief, as well as leading talks and retreats for those experiencing grief. Despite his knowledge, his life was upended by the sudden death of his twenty-one-year-old son. How does the grief expert handle such a tragic loss? He knew he had to find a way through this unexpected, devastating loss, a way that would honor his son. That, ultimately, was the sixth state of grief—meaning. In Finding Meaning, Kessler shares the insights, collective wisdom, and powerful tools that will help those experiencing loss. Finding Meaning is a necessary addition to grief literature and a vital guide to healing from tremendous loss. This is an inspiring, deeply intelligent must-read for anyone looking to journey away from suffering, through loss, and towards meaning.

Subject: When a loved one dies, the pain of loss can feel unbearable, especially in the case of a traumatizing death that leaves us shouting, 'NO!' with every fiber of our body. The process of grieving can feel wild and nonlinear and often lasts for much longer than other people, the nonbereaved, tell us it should. This book is a companion for life and most difficult times, revealing how grief can open our hearts to connection, compassion, and the very essence of our shared humanity. The author, who is also a bereavement educator, researcher, Zen priest, and leading counselor in the field accompanies the reader along the heartbreaking path of love, loss, and grief. Through moving stories of her encounters with grief over decades of supporting individuals, families, and communities, as well as her own experience with loss, the author opens a space to process, integrate, and deeply honor our grief

One dark night, popular singer Kent Harrison goes missing after his performance at Tutbury Castle. When his body's found in a forest, the police investigation focuses on Kent's ex-wife, a local herbalist, a covetous colleague, and even the curator of another castle who tried to lure Kent into performing there. But his occasional singing partner, Dave Morley, seems to have the biggest motive. He's dying to make his name, money, and the big time, especially at the medieval Minstrels Court reenactment, where Kent's appearance guarantees standing room only. Did Dave murder Kent to eliminate the competition...or had their partnership struck a wrong chord? To entice him into investigating, ex-cop McLaren's girlfriend plays detective. But Dena ends up in great danger. Now McLaren must not only solve Kent's murder but also rescue her, a hard task when a web of jealousy, anger, and lies covers the trails.

Spanning a period from high school in the seventies until a few hours before it went to the editor, the poems in Provisional Conclusions explore these topics and more: being a parent, being a man, living with ADHD, the legacy of Howard Thurman, the myth of objectivity, the delight and terror of raising a family, the dreams of Korczak Ziolkowski, and even a quick peek into hell. Poet Mike Fedel also considers race, sex, love lost and found, philosophy, consciousness, and God—what is she like, anyway? Sections include “Thinking Out Loud,” “The ADHD Chapter,” “Loss,” and “Love and Nervous Energy.” Offering accessible observations on a wide range of topics, the verses in this collection consider the raw emotions associated with love, grief, and ADHD. “...powerful and poignant poems which capture a father's experience of losing his 8 year-old daughter...” —Irving Leon, Ph.D. “...the poetry of a brilliant, often misunderstood ADHD mind, trapped in a linear world...” —Suzanne Ostrowski-Dansel, M.Ed., ACC “...fresh, moving poems by Mike Fedel, an important new voice in music and now in poetry...” —Anna Boothe, Author of “I Already Love You,” “Beyond Words,” and “Buddha.”

In this moving and compassionate classic—now updated with new material from the authors—hospice nurses Maggie Callanan and Patricia Kelley share their intimate experiences with patients at the end of life, drawn from more than twenty years' experience tending the terminally ill. Through their stories we come to appreciate the near-miraculous ways in which the dying communicate their needs, reveal their feelings, and even choreograph their own final moments; we also discover the gifts—of wisdom, faith, and love—that the dying leave for the living to share. Filled with practical advice on responding to the requests of the dying and helping them prepare emotionally and spiritually for death, *Final Gifts* shows how we can help the dying person live fully to the very end.

Deborah Hayward was widowed at just 43 years old and left with four children and very little income. Life had been turned upside down and desperate for guidance she turned to self-help books on bereavement. Horrified at what she

found there she resolved to find a spiritual truth more in keeping with her beliefs and experiences as a Psychic and Medium. Having found the advice she had read cold and dismissive of the powerful evidence of life after death, she decided to write her own book on coping with life after bereavement, which would incorporate the beautiful loving relationships possible with loved ones that have passed to spirit. Using her own experience and drawing on mediumistic evidence of the survival of spirit after death she composed a book to bring strength and comfort to the bereaved and guidance to counsellors. This book is meant to bring hope and inspiration.
