THE NATIONAL BESTSELLER "Transformative ... If Tobia aspires to the ranks of comic memoirists like David Sedaris and Mindy Kaling, Sissy succeeds." --The New York Times Book Review A heart-wrenching, eye-opening, and giggle-inducing memoir about what it's like to grow up not sure if you're (a) a boy, (b) a girl, (c) something in between, or (d) all of the above. "A beautiful book . . . honest and funny."--Trevor Noah, The Daily Show "Sensational."--Tyler Oakley "Jacob Tobia is a force." --Good Morning America "A trans Nora Ephron . . . both honest and didactic." --OUT Magazine "A rallying cry for anyone who's ever felt like they don't belong." --Woman's Day As a young child in North Carolina, Jacob Tobia wasn't the wrong gender, they just had too much of the stuff. Barbies? Yes. Playing with bugs? Absolutely. Getting muddy? Please. Princess dresses? You betcha. Jacob wanted it all, but because they were "a boy," they were told they could only have the masculine half. Acting feminine labelled them "a sissy" and brought social isolation. It took Jacob years to discover that being "a sissy" isn't something to be ashamed of. It's a source of pride. Following Jacob through bullying and beauty contests, from Duke University to the United Nations to the podiums of the Methodist church--not to mention the parlors of the White House--this unforgettable memoir contains multitudes. A deeply personal story of trauma and healing, a powerful reflection on gender and self-acceptance, and a hilarious guidebook for wearing tacky clip-on earrings in today's world, Sissy guarantees you'll never think about gender--both other people's and your own--the same way again.

'Utterly, agonisingly compulsive ... a masterpiece' Liz Jensen, Guardian The first volume in The Copenhagen Trilogy, the searing portrait of a woman's journey through love, friendship, ambition and addiction, from one of Denmark's most celebrated twentieth-century writers Tove knows she is a misfit, whose childhood is made for a completely different girl. In her working-class neighbourhood in Copenhagen, she is enthralled by her wild, red-headed friend Ruth, who initiates her into adult secrets. But Tove cannot reveal her true self to her or to anyone else. For 'long, mysterious words begin to crawl across my soul', and she comes to realize that she has a vocation, something unknowable within her - and that she must one day, painfully but inevitably, leave the narrow street of her childhood behind. Childhood, the first volume in The Copenhagen Trilogy, is a visceral portrait of girlhood and female friendship, told with lyricism and vivid intensity.

Table for one A critical reading of singlehood, gender and time is the first book to consider the profound relationship between singlehood and time. Drawing on a wide range of cultural resources - including web columns, blogs, advice columns, popular clichés, advertisements and references from television and cinema, the author challenges the conventional meaning-making processes of singlehood and time. Lahad's analysis gives us the opportunity to explore and theorize singlehood through varied temporal concepts such as waiting, wasting, timeout, age, the life course, linearity and commodification of time. This unique analytical approach enables the fresh consideration of some of our dominant perceptions about collective clocks, schedules, time tables and the temporal organization of social life in general.

Once upon a time a violent, mean, selfish Tyrannosaurus roamed the land, and all the other animals feared him. One day, while chasing other animals, the Tyrannosaurus falls into the ocean. The Elasmosaurus, who lives in the sea, saves his life, and the Tyrannosaurus says "thank you" for the very first time. From that day, the land creature and the sea creature become best friends. Frank Browning takes us into human gender geographies around the world, from gender-neutral kindergartens in Chicago and Oslo to women's masturbation classes in Shanghai, from conservative Catholics in Paris fearful of God and Nature to transsexual Mormon parents in Utah. As he shares specific and engaging human stories, he also elucidates the neuroscience that distinguishes male and female biology, shows us how all parents' brains change during the first weeks of parenthood, and finally how men's and women's responses to age differ worldwide based not on biology but on their earlier life habits. Starting with Simone de Beauvoir's world-famous observation that one is not born a woman but instead becomes a woman, Browning goes on to show equally that no one is born a man but learns how to perform as a man, and that there is no fixed way of being masculine or feminine. Increasingly, the categories of "male" and "female" and even "gay" and "straight" seem old-fashioned and reductive. Just visible on the horizon is a world of gender and sexual fluidity that will remake our world in fundamental ways. Linking science to culture and behavior, and delving into the lives of individuals challenging historic notions, Browning questions the traditional division of Nature vs. Nurture in everything from plant science to sexual expression, arguing in the end that life consists of an endless waltz between these two ancient notions.

Called "a masterpiece" by *The New York Times*, the acclaimed trilogy from Tove Ditlevsen, a pioneer in the field of genre-bending confessional writing. Tove Ditlevsen is today celebrated as one of the most important and unique voices in twentieth-century Danish literature, and *The Copenhagen Trilogy* (1969–71) is her acknowledged masterpiece. *Childhood* tells the story of a misfit child's single-minded determination to become a poet; *Youth* describes her early experiences of sex, work, and independence. *Dependency* picks up the story as the narrator embarks on the first of her four marriages and goes on to describe her horrible descent into drug addiction, enabled by her sinister, gaslighting doctor-husband. Throughout, the narrator grapples with the tension between her vocation as a writer and her competing roles as daughter, wife, mother, and drug addict, and she writes about female experience and identity in a way that feels very fresh and pertinent to today's discussions around feminism.

Ditlevsen's trilogy is remarkable for its intensity and its immersive depiction of a world of complex female friendships, family, and growing up—in this sense, it's Copenhagen's answer to Elena Ferrante's Neapolitan novels. She can also be seen as a spiritual forerunner of confessional writers like Karl Ove Knausgaard, Annie Ernaux, Rachel Cusk, and Deborah Levy. Her trilogy is drawn from her own experiences, but reads like the most compelling kind of fiction. Born in a working-class neighborhood in Copenhagen in 1917, Ditlevsen became famous for her poetry while still a teenager, and went on to write novels, stories, and memoirs before committing suicide in 1976. Having been dismissed by the critical establishment in her lifetime as a working-class female writer, she is now being rediscovered and championed as one of Denmark's most important modern authors, with "Tove fever" gripping readers.
